SOLICITATION

NOTE: In sealed bid solicitations "offer" and "offeror" mean "bid" and "bidder".

10. THE GOVERNMENT REQUIRES PERFORMANCE OF THE WORK DESCRIBED IN THESE DOCUMENTS *(Title, identifying no., date):*

Simplified Acquisition of Base Engineer Requirements (SABER)

A Pre-proposal conference/site visit will be held on 26 Jan 2005, 9:00 AM local time (CST). Only one site visit will be held. Site visit(s) for each delivery order after award will be scheduled as required.

1. Please enter your CAGE Code, Tax Identification Number (TIN) and DUNS Number in block 14.
2. A Separate Notice to Proceed (NTP) will be issued for each delivery order.
3. This requirement is a 8(a) Competitive Set-Aside for firms that are certified with the Small Business Administration (SBA), award will result in award of a "Best Value" contract.
4. The designated NAICS code is 236220.
5. The guaranteed minimum for the life of the contract is \$200,000.00. The maximum contract value is \$40 Million
Note: See DFARS 252.236-7006 on page 113 of 134 and FAR 52.216-19 on page 100 of 134.
Note: The performance period will be negotiated for each delivery order.
6. All delivery orders will be priced using the R.S Means Computerized Pricing Guide (MCPG), Unit Price Book (UPB) Means software. This software will be provided by the contractor to the government upon award.
7. Each delivery order will be funded separately.

11. The Contractor shall begin performance within 10 calendar days and complete it within _____ calendar days after receiving award, notice to proceed. This performance period is mandatory, negotiable. (See _____.)

12 A. THE CONTRACTOR MUST FURNISH ANY REQUIRED PERFORMANCE AND PAYMENT BONDS?
(If "YES," indicate within how many calendar days after award in Item 12B.)

YES NO

12B. CALENDAR DAYS

10

13. ADDITIONAL SOLICITATION REQUIREMENTS:

- A. Sealed offers in original and 1 copies to perform the work required are due at the place specified in Item 8 by 04:00 PM (hour) local time 10 Feb 2005 (date). If this is a sealed bid solicitation, offers must be publicly opened at that time. Sealed envelopes containing offers shall be marked to show the offeror's name and address, the solicitation number, and the date and time offers are due.
- B. An offer guarantee is, is not required.
- C. All offers are subject to the (1) work requirements, and (2) other provisions and clauses incorporated in the solicitation in full text or by reference.
- D. Offers providing less than 120 calendar days for Government acceptance after the date offers are due will not be considered and will be rejected.

QUESTIONS

Question 1: Section L, Part I-Past Performance, paragraph (a): We were unable to determine whether relevant experience is within the past three years or within the past five years. The second sentence states that relevant experience is performed in the past three years, but the third sentence states that we are to send past performance questionnaires (PPQs) to references with whom we have completed service contracts during the past five years.

Answer: Information on past performance has been updated to three years. See new page 125 of 134 dated 20 Jan 05.

Question 2: Referring to Section L paragraphs (a) and (c) respectively: Are we to infer that the ten references on our reference list as instructed by paragraph (c) are to be the same ten references to whom we sent PPQs as instructed by paragraph (a)-assuming we send PPQs to the maximum ten references?

Answer: The 10 references in Paragraphs (a) and (c) can be duplicated.

Question 3: Referring to the final page of Attachment 5, the Past Performance Questionnaire: The heading "OVERALL EVALUATION OF THE CONTRACTOR" is followed by a series of questions that may confuse an evaluator. For instance, answering "No" to number three is the same as answering "Yes" to number one, and vice versa. Replacing the yes-or-no responses with check boxes would eliminate the redundancy along with any potential confusion.

Answer: This section will remain unchanged.

Question 4: Do you anticipate awarding the SABER contract by any approximate date? An estimate would be helpful for us as we anticipate the potential for new staffing requirements.

Answer: We cannot predict with any certainty an estimated award date.

Question 5: We are able to determine that certain individual positions will be required under the SABER contract (e.g. site supervisor), but we find no definitive list. What are the minimum personnel requirements for the contract?

Answer: It will be left up to the discretion of the new contractor to staff in accordance with the work load and the Statement of work.

Question 6: In Section L, Part I, paragraph (a), the proposal states: "Relevant past performance consists of *multi-tasked* construction projects of varying complexity, each exceeding \$50,000 . . ." The term "multi-tasked" seems to indicate that you want individual task orders involving a number of different construction trades or disciplines. However, one might take this to mean that you want contracts with multiple task orders. To be sure that we are clear, please state whether you want each PPQ filled out for an individual task order (a.k.a. delivery order, project, etc.) or if you would take one PPQ to cover an entire contract with multiple task orders (e.g. another SABER contract). Likewise, should each reference on the reference list described in paragraph (c) cover an individual task order, or might it cover an entire IDIQ contract?

Answer: We do not want Past Performance Questionnaires PPQ on individual task orders, but we do want PPQ on relevant contracts for construction that involve "multi tasked" construction contracts of varying complexity.

Question 7: Having answers to some of the questions we have asked is essential to our moving forward with certain aspects of proposal development, including giving evaluators ample time to complete PPQs. Because answers to these questions are slated to be released on 31 January 2005, will you be extending the deadline for submission of proposals and PPQs?

Answer: The proposal due date is not being extended at this time.

1. Will you accept electronic signatures on the SF 1442?

Answer: Please reference page 128 of 134. No you must have an original signature.

2. Is the Estimating Fee added after the negotiated construction cost, multiplied by the respective co-efficient, to arrive at the final total negotiated construction cost?

Answer: Please reference Paragraph C304.3

PAGE 2 AMENDMENT 0006

Page 2

This amendment is being issued to comply with recent guidance, which requires the contracting officer to execute contractual documents with sufficient funds to cover the contract minimum at the time of award.

A. Change Block 10 of SF 1442 #5 first line from: "The guaranteed minimum for the life of the contract is \$200,000.00" to read, "The guaranteed minimum for the life of the contract is \$400.00".

B. Change Page 4 Note 10 from: " The "minimum" contract amount IAW FAR 52.216-22 as stated in the schedule, will be \$200,000.00, and the "maximum" shall not exceed \$40 Million over five (5) years"to read "The "minimum" contract award amount IAW FAR 52.216-22 as stated in the schedule will be \$400.00, and the "maximum" shall not exceed \$40 Million over five (5) years".

C. If you intend to revise your proposal as a result of this amendment, provide your revised proposal to the office indicated in block 7 SF 1442 by the date listed in Item "D" below.

D. The hour and date specified for receipt of Revisions to Proposals is 4:00 PM Local time Friday, 15 Apr 2005.

Reminder: Revisions to Proposals by facsimile will be accepted; however, the originals must be received in this office prior to award. Our fax number is 660-687-5462.

//////////////////////////////////LAST ITEM//////////////////////////////////

Section B - Supplies or Services and Prices

STANDARD NOTES

STANDARD NOTES FOR SCHEDULE OF OFFERS BASIC CONTRACT PERIOD THROUGH OPTION YEAR FOUR:

NOTE 1: STANDARD WORKING HOURS for the contractors are for the period from 7:00 a.m. to 4:30 p.m., Monday through Friday, excluding Saturdays, Sundays, and Federal Holidays. If the Contractor desires to work during non-standard working hours, on a Standard Working Hours Delivery Order, additional Government inspection forces may be required. The Contractor shall notify the Contracting Officer in writing **three working days in advance** of his/her intention to work during periods other than Standard Working Hours. This notification shall allow the inquiry into the availability of additional Government Inspectors. If the Contracting Officer confirms that additional Government Inspectors are reasonably available, the Contracting Officer may authorize the Contractor to perform work during periods other than Standard Working Hours; however, if the Government Inspectors are required to perform in excess of their normal duty days solely for the benefit of the Contractor, the actual cost of inspection at overtime rates shall be charged to the Contractor.

NOTE 2: NON-STANDARD WORKING HOURS will be defined on individual delivery orders and shall be outside the definition of the standard working hours and not in controlled areas.

NOTE 3: NON-STANDARD WORKING HOURS IN CONTROLLED AREAS will be outside the definition of the standard working hours and concerning work inside the controlled areas. All work inside of controlled areas may be subject to brief delays due to security processing (30 minutes time each process on and off per visit to the controlled area) or interruption to the normal work schedule to permit the completion of mission essential operations. Such interruptions, if required, will be given on short notice and expeditious action will be required. Each interruption may last up to 60 minutes. The Contractor shall not be compensated for said delays other than the coefficient for this type of work.

NOTE 4: CONTROLLED ACCESS AREAS will be specified in each affected delivery order. Concerning work inside the controlled areas, the prices will be based on the usual item unit price format, but will be affected by the corresponding controlled area coefficient. All work in controlled areas is assumed to be within standard working hours. All work inside of controlled areas may be subject to brief delays due to security processing (30 minutes time each process on and off per visit to the controlled area) or interruption to the normal work schedule to permit the completion of mission essential operations. Such interruptions, if required, will be given on short notice and expeditious action will be required to leave the area. Each interruption may last up to sixty (60) minutes. The contractor shall not be compensated for said delays other than the coefficient for this type of work

NOTE 5: ESTIMATE WITHOUT AWARD is defined as follows: Occasionally, the Contractor will prepare a proposal, but the delivery order will not be fully funded by decision of the Government. In order for the Contractor to receive some monetary compensation for efforts (Design only). The Contractor shall submit costs per delivery order magnitude for the amount of compensation to be received in the event such effort takes place. Actual payment level shall be based on final negotiated price.

PROJECT ESTIMATING FEE: This fee shall be deducted from the delivery order when award is **made for** construction if award is made within one year from the time the negotiations were completed.

NOTE 6: In some rare instances a design will already be in the Government's possession; in this case the Contractor shall be paid 55 percent of line items 000109-000112, 100109-100112, 200109-200112, 300109-300112 and 400109-400112, as appropriate, as set forth in the bid schedule section B.

NOTE 7: Proposal prices must be entered for all items of the Proposal Schedule. (Coefficients are factors that are multiplied against the standard unit prices in calculating delivery order (D.O.) prices. Coefficients include cost elements of: overhead, profit, minimum design costs, general and administrative expenses, and bond premiums. Coefficients are to be carried out not more than three (3) decimal points.)

NOTE 8: The general outline of the principal features of each bid item as listed does not in any way limit the responsibility of the offeror for making a thorough investigation of the Request for Proposal to determine the scope of work included in each bid item.

NOTE 9: DESIGN: Minimum design effort, that which is incidental to accomplishing the required task, is required by all Contract Line Item Numbers (CLINs) except for. 0001, 1001, 2001, 3001, and 4001.

NOTE 10: MINIMUM/MAXIMUM CONTRACT AMOUNT: The “minimum” contract amount IAW FAR 52.216-22 as stated in the schedule, will be \$200,000.00, and the “maximum” shall not exceed \$40 million over five (5) years. The government reserves the right to exercise any or all option years.

NOTE 11: There were a total of 233 Delivery Orders issued under the SABER contract F23606 00 D0001 through 10 June 2004.

The total number of Delivery Orders under \$25,000 were: 44
The total number of Delivery Orders between \$25,000 and \$100,000 were: 87
The total number of Delivery Orders between \$100,000 and \$300,000 were: 40
The total number of Delivery Orders over \$300,000 were: 62

Please be advised a few of the above Delivery Orders total dollar amounts may have moved to a different dollar amount depending on whether or not modifications have been issued since 30 June 04. The total number of Delivery Orders and dollar amounts awarded from 12 Jan 00 through 30 June 04, are not a guarantee of the total number of delivery orders or dollar amounts to be awarded under the proposed SABER contract.

NOTE 12. ESTIMATED QUANTITIES: The estimated dollar amounts and quantities specified in NOTE 11, **reflect the total number of delivery orders issued during the specified time frame.**

NOTE 13. OFFERS: Each offeror shall submit the data required in Section L, Proposal preparation instruction, in the form of a proposal in order to be evaluated and considered for contract award. The proposal is made up of two volumes Past Performance (Vol I), Price (Vol II). These items are to be addressed separately.

B-1. CLAUSES AND PROVISIONS

- (a) Clauses and provisions from the Federal Acquisition Regulation (FAR) and supplements thereto are incorporated in this document by reference and in full text. Those incorporated by reference have the same force and effect as if they were given in full text.
- (b) Clauses and provisions in this document will be numbered in sequence, but will not necessarily appear in consecutive order.
- (c) Sections K, L and M will be physically removed from any resultant award, but will be deemed to be incorporated, by reference, in that award.

B-2. DAVIS-BACON WAGE RATE APPLICATION

(a) This contract is an indefinite-delivery, indefinite-quantity (IDIQ) requirement and contains options to extend the term of the contract. The specific sites of performance for the various delivery orders that may be ordered is unknown. The wage determination issued under the Davis-Bacon Act by the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, current at time of award or at the exercise of each option to extend the term of the contract, shall be incorporated into the contract in full text and, as applicable, by reference into each delivery order issued during each performance period. They shall be effective for the complete period of performance of those delivery orders without further revision.

(b) Each Offeror is provided an opportunity to propose separate prices/coefficients for the basic and each option period. Additionally, at the beginning of each option period, a new Unit Pre-Priced Database with current year pricing will be incorporated and used to price individual projects in conformance with the terms and conditions specified herein. Therefore, no further adjustment to contract pricing will be permitted to cover any increase or decrease in wages and benefits as a result of:

- (1) Incorporation of the Department of Labor's wage determination applicable at the exercise of the option to extend the term of the contract;
- (2) Incorporation of a wage determination otherwise applied to the contract by operation of law; or
- (3) An increase in wages and benefits resulting from any other requirement applicable to workers subject to the Davis-Bacon Act.

STATEMENT OF WORK

C 101. PROJECT DESCRIPTION: All work shall be in conformance with the requirements of the contract including, but not limited to, furnishing all materials, labor, plant, tools, equipment, transportation, supervision, management, and other services (including engineering/technical design support), items, and incidentals necessary for the successful completion of each issued delivery order. This contract is for a broad range of maintenance, repair, and minor construction work within a 100-mile radius of Whiteman Air Force Base. The contract is a firm fixed price, Indefinite Delivery, Indefinite Quantity (IDIQ) for Simplified Acquisition of Base Engineer Requirements (SABER). The contract consists of four major elements as follows:

C 101.1. Detailed delivery orders specifications encompassing most aspects of Base Civil Engineer work

C 101.2. Units of measure and corresponding prices for each of the specifications and delivery order

C 101.3. General and Special Provisions

C 101.4. No monetary amount shall be obligated by the award of the contract. Monetary amounts are obligated by the issuance of delivery orders only.

C 102. COMMENCEMENT OF WORK: Within 30 calendar days after contract award, the Contractor shall be fully operational and capable of responding to requirements for proposals. Within thirty (30) calendar days after contract award, the Contractor shall be capable of performing work on delivery orders.

C 103. TECHNICAL SPECIFICATIONS: The SABER Technical Specifications (Section J, Attachment No. 4,4a,4b) are electronically attached. These Technical Specifications shall furnish concise industrial and/or commercial standards for maintenance and repair of government facilities.

C 103.1. The SABER Technical Specifications are numbered and organized by the Construction Specification Institute's (CSI's) Master Format. All specifications are filed in Divisions 1 through 16 as per CSI guidelines.

C 104. REGULATIONS:

C 104.1. The Contractor shall comply with all applicable Federal, State, local and Air Force regulations, including supplements pertaining to safety, traffic control, and fire prevention.

C 104.2. The work under the delivery orders shall be designed in accordance with the design and construction standards contained in National Fire Protection Code, National Electrical Code, National Plumbing Code; and other applicable Department of Defense and Air Force regulations, federal regulations, State of Missouri regulations, manuals, engineering technical letters, energy conservation criteria, Whiteman's Technical Specifications and Whiteman's Interior Design Policy.

C 104.3. The Contractor may view the Government CDROM library which contains most applicable Air Force and Corps of Engineer publications as well as some commercial product data information. However, the Air Force will not furnish the Contractor reference materials, codes, regulations, or guide specifications. These may be acquired from the Government Printing Office or from other federal agencies.

C 104.4. The latest edition of the following Building Codes shall be used and maintained for all construction under this contract.

C 104.4.1. Uniform Building Code

C 104.4.2. Uniform Mechanical Code

- C 104.4.3. Uniform Plumbing Code
- C 104.4.4. National Electrical Code
- C 104.4.5. Life Support Code - 101
- C 104.4.6. National Fire Code
- C 104.4.7. National Electrical Safety Code

C 104.5. The Contractor shall have a copy of each of these documents available for use during the term of this contract.

C 104.6. If there is a conflict between these codes, regulations, and specifications, the most stringent requirements shall apply at all times.

C 105. MATERIALS FOR DESIGN:

C 105.1. Drawings: The Government will furnish blueprints of available as-built drawings which are pertinent to the facility/area involved in the Statement of Work to the Contracting Officer who, in turn will provide them to the Contractor.

C 105.1.1. The Government does not guarantee the accuracy or adequacy of the available as-built drawings. The Contractor shall verify, by field investigation, all conditions and information relevant to the project, including dimensions, prior to the issuance of each delivery order. This confirmation of accuracy shall enhance the quality of the delivery order's design. The Contractor shall advise the Contracting Officer, or his/her authorized representative, in writing of any discrepancies prior to submitting the proposal. Failure to verify the dimensions and locations shall be at the Contractor's risk and shall not relieve the Contractor from accomplishing the work required by the contract at the price awarded by the Government.

C 105.1.2. Where exact locations are not given in the Statement of Work for the positioning of equipment, devices, and work, they shall be positioned to permit easy access for maintenance and for removal and replacement of component parts. The Contractor is responsible for the coordination and proper relation of the work with the existing surroundings.

C 106. EQUIPMENT/SUPPLIES: The Contractor awarded this contract shall be required to provide to the Government and to maintain the following equipment and programs at the Contractor's expense:

C 106.1. Electronic Format: All electronic correspondence of information outside of e-mail shall be done in Microsoft Word or Microsoft Excel.

C 106.2 Publications: The Contractor shall provide the Government with the number of copies indicated below of the following publications, the latest edition, and any updates, for the life of the contract. If there is a conflict between these codes, regulations, and specifications, the most stringent requirements shall apply at all times. These publications shall be furnished to the Contracting Officer no later than 30 days after contract award. These are in addition to paragraph C104.5.

<u>Copies</u>	<u>Publication</u>
2	"The Uniform Mechanical Code"
2	"The Uniform Plumbing Code"
2	"The Uniform Plumbing Code Illustrated Training Manual"
2	"The Life Safety Code"
2	"BOCA Code"
4	R.S. Means Facilities File Data Base
4	R.S. Means Facilities Construction Cost Data
4	R.S. Means Mechanical Cost Data
4	R.S. Means Plumbing Cost Data

- 4 R.S. Means Electrical Cost Data
- 4 R.S. Means Assemblies Cost Data
- 4 R.S. Means Site Work & Landscape Cost Data
- 4 R.S. Means Interior Cost Data
- 4 R.S. Means Concrete & Masonry Cost Data

These publications shall remain the property of the government.

C 106.2. Software: The Contractor shall provide one (1) network license for six (6) concurrent terminals to operate the R.S. Means Data Base and Facility Maintenance and Repair Guides described above shall be Pulsar program (the operating system shall be Microsoft Windows XP compatible). The software shall remain the property of the Government at the termination of the contract period. The software shall be upgraded yearly at no additional expense to the Government. Software will be installed by the local systems administrator on the Civil Engineer server and shall allow multi-user and multi-tasking activities simultaneously. The software will allow the local systems administrator to add negotiated non-priced items to the database.

C 106.3. Computers: The Contractor shall provide two (2) laptop computers with Pulsar software loaded on each. The Pulsar software shall be the same version as specified in paragraph 106.3 and updated yearly. The laptop computers shall also have any necessary supporting software (Windows XP) to support Pulsar. The laptop computers shall be capable of operating either as stand alone or from electrical outlets. The laptop computers shall become the property of the Government at the end of the contract.

C 106.3.1. Computer Requirements: The computers shall have as a minimum the following:

256 Meg RAM	20 Gig Hard Drive
1.3 GHz	24 X CD-RW/DVD combo drive
3 ½ Floppy Drive	Windows XP pro
Ethernet 10/100 Mbps	56 Kbps Modem (non xjack connection)
14 inch monitor	

C 106.4. Program Training: The Contractor shall provide Pulsar training seminars within 30 calendar days of contract award, from a certified instructor, for up to 20 Government employees at Whiteman AFB. The Contractor's employees may attend the same training session(s). Additionally, the training shall be repeated within 30 calendar days after each option period to ensure that personnel are fully qualified.

C 106.5. Communication Equipment: The Contractor shall provide and maintain three way communications for (1) Project Management, (2) Project Site and (3) Air Force at all times at the contractor's expense.

C 107. RECORDING AND PRESERVING HISTORICAL AND ARCHAEOLOGICAL FINDS: All items having any apparent historical or archaeological interest which are discovered in the course of any construction activities shall be carefully preserved. The Contractor shall leave the archaeological find undisturbed and shall immediately report the find to the Contracting Officer, or his/her designated representative, so that the proper authorities may be notified.

C 108. STANDARD PRODUCTS: Materials and equipment shall be standard products of a manufacturer regularly engaged in the manufacture of such products, which are of a similar material, design, and workmanship. The standard products shall have been in satisfactory commercial and/or industrial use for 2 years prior to use. The 2-year use shall include applications of equipment and materials under similar circumstances and of similar size. The 2-year's of use must be satisfactorily completed by a product which has been sold or is offered for sale on the commercial market through advertisements, manufacturers' catalogs, or brochures. Products having less than a 2-year field service record will be acceptable, if a certified record of satisfactory field operation, for not less than 6,000 hours exclusive of the manufacturer's factory or laboratory

tests, can be shown. The Contractor shall not purchase “close-out” products that are being discontinued by the manufacturer.

C 109. PERFORMANCE OF WORK BY CONTRACTOR:

C 109.1. The Contractor shall perform on the site, and with its own organization, work equivalent to at least **fifteen percent (15%)** of the total amount of work to be performed under the contract. Design, negotiations, construction drawings, material approval submittals, and other non-field work does not contribute to this 15% of total work performed. This percentage may be reduced by a supplemental agreement to this contract if, during performing the work, the Contractor requests a reduction and the Contracting Officer determines that the reduction would be to the advantage of the Government. This will be required for each delivery order. (FAR 52.236-1)

C 109.2. The Contractor shall maintain an organizational chart showing the total organization, onsite staff and engineering support team. The on site staff shall include the relationship of the site superintendent and quality control. A final organizational chart shall be provided to the government at the start of the contract, or after personnel changes.

C 109.2.1. The Organization chart shall provide clear, logical lines of authority from Program Manager to subcontracting management, demonstrating technical sufficiency, including site superintendents and quality control.

C 109.2.2. The Contractor shall provide a position description of the on site staff. This shall include a brief job description, qualifications, responsibilities and decision making authority of each member.

C 109.3. The Contractor shall provide an on site superintendent. The superintendent must provide on-site decision making authority.

C 110. APPLICATION OF WAGE RATES AND FRINGE BENEFITS: For the application of the wage rates and fringe benefits contained in the Decision of the Secretary of Labor; attached to and a part of this contract, all work shall be considered Heavy and Highway Construction, Building Construction, or Residential.

C 111. SAFETY: Compliance with the current U.S. Army Corps of Engineers “Safety and Health Requirements Manual”, (EM 385-1-1); Occupational Safety and Health Act (OSHA) standards, and current Whiteman AFB safety regulations is mandatory. The prime Contractor shall be held responsible to insure that his/her workforce and any subcontractor or supplier workforce comply to the above safety requirements.

C 111.1. Whiteman AFB does not have a hospital on site but does have a medical clinic. Should an injury occur they can provide emergency medical treatment. Follow-on care after initial emergency treatment will not be provided. The Contractor will be required to reimburse the Government at an established rate for non-beneficiaries in accordance with DoD Regulation 6010.15.

C 111.2. Personal Safety: Adequate protection of all persons (regardless of who they are employed with) shall be provided at all times. Work shall proceed in a manner to prevent hazard.

C 111.3. Special Safety Requirements: The Contractor shall comply with Air Force and local fire regulations and NFPA 241-1986 “Safeguarding Building Construction and Demolition Operations.” Fire extinguishers rated and approved by the National Fire Protection Association, of sufficient size, type, and quantity to cope with all known hazards, shall be provided by the Contractor at the construction site during the execution of this contract; the extinguishers shall be removed upon acceptance of the project.

C 112. PARTNERING:

- C 112.1. The Government intends to encourage the formation of a cohesive partnership with the Contractor. This partnership will be structured to draw on the strengths of each organization to identify and achieve reciprocal goals. The objective is effective contract performance in achieving completion within budget, on schedule and in accordance with plans and specifications. This partnership between the Contractor and the Government will be voluntary and its implementation will not be part of the contract requirements nor will it result in a change to contract price or terms.
- C 112.2. Immediately after the preconstruction conference, the appropriate Contractor's key personnel and a maximum of ten (10) Government key personnel will attend a 1-day team-building workshop sponsored by the Contractor. Follow-up workshops of 1 or 2 days' duration may be held periodically throughout the duration of the contract as agreed to by the Contractor and the Government.

GENERAL CONDITIONS

C 201 LOCATION OF STAFF: The Contractor will be provided with approximately 120 square foot of office space on Whiteman AFB so that the contractor will be able to respond very rapidly to an unexpected situation. Additionally, the Contractor will be required to maintain an off-site engineering staff within a fifteen (15) minute response time of Whiteman AFB, during standard working hours and be equipped with cellular phone capabilities, to respond to the requirements set forth in this contract. Additional engineering staff may be established at another off-site location in close proximity (one (1) hour driving time) to Whiteman AFB.

C 202 STAGING/STORAGE AREA: (FAR 52.236-(10 April 84)) None shall be provided.

C 203 PASS AND IDENTIFICATION ITEMS:

- C 203.1. Search, Inspection, and Seizure: All vehicles, personnel, and hand-carried items, entering or exiting any base control point, or while on the base, are subject to search and inspection and seizure of any prohibited item, at any time. Random, unannounced, and regular searches and inspections will be conducted. These searches and inspections are intended to assure prohibited articles are not introduced into, and government property is not removed from the base or its facilities.
- C 203.2. Parking: Parking of the Contractor's vehicles shall be restricted to the area of work. The company name shall be prominently displayed on all construction vehicles parked where work is being accomplished.
- C 203.3. Driver's Licenses: All persons entering or working on Whiteman Air Force Base shall possess a valid Driver's License or State issued ID Card.
- C 203.4. The use of seatbelts by all vehicle operators and passengers is mandatory on Whiteman AFB. Vehicle operators caught not wearing seatbelts will lose their driving privileges, subject to laws governing Military and Civilian Employees.
- C 203.5. On-base contractor employees shall ensure the following pass and identification items required for contract performance, are obtained for employees and non-government owned vehicles.
- C 203.6. DD Form 1172, "Application for Uniformed Services Identification Card." Forms shall be supplied by and completed by the Contracting Office at 727 Second Street, Suite 124A, Whiteman AFB MO 65305-5054. The contractor shall carry the completed forms to the Security Forces, Pass and Identification Office, Bldg 2027, Spirit Gate, Whiteman AFB MO 65305.
- C 203.7. AF Form 75, Visitor/Vehicle Pass, will be issued by the Security Forces, Pass and Identification Office, upon proof of employment, valid insurance, valid registration and a valid drivers license.

- C 203.8. AF Form 2219 (series), Registered Vehicle Expiration Tab.
- C 203.9. AF Form 2220 (series), DOD Registered Vehicle and Installation Tab.
- C 203.10. AF Form 1199, USAF Restricted Area Badge. (IF APPLICABLE) An AF Form 2586, Unescorted Entry Authorization Certificate, must be completed and signed by the sponsoring agencies Security Manager before a Restricted Area Badge will be issued. Contractor employees must have a completed National Agency Check (NAC) investigation before receiving a Restricted Area Badge, at the expense of the contractor.
- C 203.11. Retrieving Identification Media. The contractor shall retrieve all identification media, including vehicle passes from employees who depart for any reason before the contract expires; e.g., terminated for cause, retirement, etc. These items should be turned into the Contracting Officer.
- C 203.12. For Official Use Only (FOUO). The contractor shall comply with AFI 37-131 and DoD 5400.7-R, Freedom of Information Act Program (FOIA), requirements. The regulation sets policy and procedures for the disclosure of records to the public and for marking, handling, transmitting, and safeguarding FOUO material.
- C 203.13. Additional Security Requirements: In accordance with DOD 5200.1-R, and AFI 31-401, The contractor shall comply with requirements identified in AFSSI 9100, Communications Security (COMSEC), Command, Control, Communications and Computer (C4) Systems Security, Security Awareness Training Education (SATE), and Operations Security (OPSEC).
- C 203.14. Reporting Requirements. The contractor shall comply with AFI 71-101V4, "Counterintelligence Awareness and Briefing Program" requirements. Contractor personnel shall report to an appropriate authority any information or circumstances of which they are aware may pose a threat to the security of DOD personnel, contractor personnel, resources, and classified or unclassified defense information. Contractor employees shall be briefed by their immediate supervisor upon initial on-base assignment.
- C 203.15. Traffic Laws. The contractor and its employees shall comply with base traffic regulations.
- C 203.16. Key Control. The contractor shall establish in writing and implement methods of making sure all keys issued to the contractor by the Government are not lost or misplaced and are not used by unauthorized persons. This established plan shall be submitted to the Contracting Officer in writing. The contractor shall not duplicate any keys issued by the Government.

The contractor shall immediately report to the Contracting Officer any occurrences of lost or duplicated keys.

In the event keys, other than master keys, are lost or duplicated, the contractor may be required, upon written direction of the Contracting Officer, to re-key or replace the affected lock or locks without cost to the government. The government may, however, at its option, replace the affected lock or locks or perform re-keying and deduct the cost of such from the monthly payment due the contractor. In the event a master key is lost or duplicated, the government shall replace all locks and keys for that system and the total cost deducted from the monthly payment due the contractor.

The contractor shall prohibit the use of keys, issued by the government, by any persons other than the contractor's employees and the opening of locked areas by contractor employees to permit entrance of persons other than contractor employees engaged in performance of contract work requirements in those areas.

- C 203.17. Lock Combinations: The contractor shall control access to all government provided lock combinations to preclude unauthorized entry.

- C 203.18. Controlled/Restricted Areas. (IF APPLICABLE) The contractor shall implement local base procedures for entry to Air Force controlled/restricted areas where contractor personnel will work.
- C 203.19. Operating Instructions (IF APPLICABLE). The contractor shall develop an operating instruction (OI) for internal circulation control, protection of resources and to regulate entry into Air Force controlled areas during normal, simulated and actual emergency operations. The OI shall be written the local base Operations Plan and AFI 31-210, Anti Terrorism Program and coordinated through (Servicing Security Forces Squadron at 1031 Vandenberg Ave. Whiteman AFB MO 65305).
- C 203.20. Entry Authorization Letter (EAL): Seven (7) calendar days prior to the initial access in any area on Whiteman AFB, the Contractor shall provide the Contracting Officer with a list of employees requiring entry. This list will include the full name, company name, date of birth, and social security number of each employee; the make, model, color, year, license number and state of each vehicle. Subsequent additions to the EAL may be made by letter five (5) working days in advance of the employee's arrival. Employees who have been terminated or dismissed shall be removed from the entry list immediately.

C 204 CONTRACTOR'S TELEPHONE:

- C 204.1. Upon Award: At the beginning of the contract, prior to telephone installation, the Contractor shall provide the Contracting Officer with a telephone number at which the Contractor, or his/her representative, may be contacted at any time during standard working hours.
- C 204.2. Telephone Service: When the Contractor locates on Base the Contractor shall have temporary telephone service line(s) installed at the office site. Southwestern Bell shall be the installation agent and shall be consulted prior to installing any telephone equipment.
- C 204.3. Contract Completion: At the completion of the contract, all temporary telephone equipment shall be removed at the expense of the Contractor.
- C 204.4. Costs: All costs incurred as a result of the telephone installation and service shall be borne by the Contractor.
- C 204.5. Emergency Phone Number: An after standard hours emergency telephone number for the Contractor shall be provided to the Contracting Officer or his/her authorized representative. Updates shall be provided to the Contracting Officer, or his/her authorized representative in a timely manner.
- C 204.6. Communications Security (COMSEC): All communication with Department of Defense (DOD) organizations are subject to COMSEC review. Contractor personnel will be aware that telecommunications networks are continually subject to intercept by unfriendly intelligence organizations. The DOD has authorized monitoring of the military phone calls originating from or terminating at DOD organizations. Therefore, civilian Contractor personnel are advised that any time they place a call to or receive a call from a USAF organization, they are subject to COMSEC procedures. The Contractor will assume the responsibility for ensuring wide and frequent dissemination of the above information to all employees dealing with official DOD information.

C 205 EMPLOYEE STANDARDS: The Contracting Officer may, in writing, require the Contractor to remove from the site any employee the Contracting Officer deems incompetent, careless, or otherwise objectionable. The following shall apply:

- C 205.1. All work under this contract shall be performed in a skillful, workmanlike, and professional manner.
- C 205.2. Proper Attire: Improper attire, i.e. attire not providing sufficient safety protection and a professional appearance (minimum of long trousers, shirt and shoes) will be reported to the Ground Safety Office and

the Contracting Officer respectively. In addition, no profane, illegal, offensive or discriminatory language/symbols shall be displayed.

C 205.3. Subcontractors: The Government shall not exercise any supervision or control over the Contractor's employees performing service under this contract; such employees shall be accountable not to the Government, but solely to the Contractor, who in turn, is responsible to the Government.

C 205.4. Unauthorized Personnel: Contractor personnel will be limited to official business only on Whiteman AFB, MO. Persons in violation of the above will be apprehended and appropriately disciplined.

C 206 PROHIBITED ITEMS: Certain items are prohibited on base. Personnel who are found to be in possession of prohibited items will be challenged and the item confiscated pending an investigation. Personnel in possession of prohibited items are subject to disciplinary action, withdrawal of access authorization, or arrest and prosecution. The following non-government owned items are prohibited on base, unless an exception is noted:

C 206.1. Smoking is permitted in designated, outside smoking areas only. No smoking will be allowed within any base facility.

C 206.2. Alcohol, controlled substances including illegal drugs and associated paraphernalia, except for prescription medicine

C 206.3. Firearms, ammunition, and other dangerous or deadly weapons, explosives or incendiary devices

C 206.4. Pets, wild or domestic

C 206.5. Other items prohibited by law

C 207 GOVERNMENT FURNISHED EQUIPMENT/MATERIALS: Government Furnished Equipment/Materials (GFE/M): Government furnished materials will not be furnished to the Contractor as a general rule. However, the government reserves the right to provide GFE/M to be used on any task order. In such cases, these materials shall be receipted for by the Contractor and the non-priced item line item material cost shall be excluded from the price of the task order. The Contractor shall follow the instructions of the Contracting Officer's representative regarding the disposition of all government-furnished property not consumed in performance of the task order.

C 207.1. Property Administrator: The Base Civil Engineer, or his/her authorized representative, is designated as Property Administrator for Government-furnished equipment/material to be furnished to the Contractor for performance under this contract.

C 207.2. Transportation: The Contractor, with his own forces, shall transport all Government Furnished Equipment/Materials (GFE/M), if any described on the delivery order. The equipment/material shall be transported from the Government storage area to the work site indicated on the delivery order.

C 207.3. Contractor Responsibility: The Contractor assumes the risk and responsibility for the loss or damage to the Government-furnished property.

C 208 GOVERNMENT LIABILITY: The Government shall not be liable for any loss or damage to the Contractor's property, including stock or for expense incidental to such loss or damage.

C 209 WORK:

C 209.1. Scheduling: Before any of the work is initiated under any individual delivery order, the Contractor shall confer with the Contracting Officer, or his/her authorized representative(s), and agree on: a

sequence of procedure; means of access to premises and building; space for storage of materials and equipment; delivery of materials and use of approaches; use of corridors, stairways, elevators, and means of communications; and the location of partitions, eating spaces, and restrooms for Contractor's employees.

- C 209.2. Permits: The Contractor is responsible for acquisition of all permits required by Whiteman Air Force Base, State, and Federal Governments, to include AF Form 103, Work Clearance Request. Required permits may include, but are not limited to, environmental permits, such as asbestos disposal documents and storm drainage permits, transportation permits, and welding permits. (The Contractor shall obtain a welding permit from the Base Fire Chief immediately prior to performing any welding by a certified welder.)
- C 209.3. Concealed Work: All items of work to be concealed shall be Government inspected prior to concealment. Contractor shall notify the Contracting Officer's representative of his/her intention to conceal a minimum of 24 hours in advance and no items shall be concealed until the contractor has received approval to do so from the Contracting Officer's representative.
- C 209.4. Furniture Moving: Furniture and portable office equipment in the immediate area shall be moved by the Contractor and replaced to original position as identified in each Delivery Order upon completion of the work. If the work required by the delivery order will not allow furniture and portable office equipment to be replaced to its original position, new locations will be designated by the Contracting Officer or the Contracting Officer's representative for replacement by the Contractor. This work will be identified in the Delivery Order as a line item.
- C 209.5. Material Delivery: Delivery of materials and equipment shall be made with a minimum of interference to Government operations and personnel.
- C 209.5.1. Incoming Supplies: The Contractor shall coordinate with suppliers and shippers to ensure incoming materials are properly identified with the Contractor's name, contract number, and delivery order description. Also, a designated individual shall be identified to receive shipments. No covered storage area is available for the Contractor's use. In restricted areas, both the individual or alternate designated to receive the shipments as well as the shipper must be identified in writing to the Contracting Officer five (5) working days prior to receipt of shipment.
- C 209.6. Material Testing: The Contractor shall notify the Contracting Officer or the Contracting Officer's Representative a minimum of 24 hours in advance of when and where testing is to be performed so the Government will have the option of witnessing the test.
- C 209.7. Site Fencing And Mowing: The Contractor shall provide and maintain at his expense adequate orange snow fencing around each entire delivery order work site; all site storage areas are considered a part of the work site. When grass/weeds exceed six inches in height, all areas contained within each delivery order shall be mowed. Snow fencing on pavement shall be supported by weighted orange barrels.
- C 209.8. Area: The work shall, so far as practicable, be done in definite sections or divisions and confined to limited areas which shall be completed before work in other sections or divisions have begun in each individual delivery order.
- C 209.9. Occasionally it is necessary to require either early release of Whiteman AFB personnel, their late reporting or even base closure when weather conditions make travel unsafe. When weather conditions cause one of the above situations, contractor personnel will be denied access to the base, unless they have been notified by the Contracting Officer their contract service has been determined essential. Denied access in these situations will result in no additional cost to the Government.

- C 209.9.1. Some of the following radio and television stations broadcast and monitor Whiteman AFB closing and late reporting information: WDAF (610 AM), KMBZ (980 AM), KSIS (1050 AM), KDKD (1280 AM/95.3 FM), KOKO (1450 AM), KDRO (1490 AM), KLRQ (96.1 FM), KPRS (103.3 FM), KBEQ (104.0 FM), KXXK (105.7 FM), and KMBC (TV CH 9).
- C 209.10. Elevators: Any temporary use of an existing elevator shall be by arrangement through the Contracting Officer and subject to his/her controls. Such use will be of an intermittent nature. The Contractor shall provide and maintain suitable and adequate protection covering for the elevator machinery, the hatchway entrance, and the interior of elevator during the period of temporary use. Loads in excess of the rated capacity of the elevator will not be permitted. On completion of the work, the Contractor shall remove the protection coverings together with any resultant dirt and debris, and leave the equipment in a condition equal to or better than that in which it was found.
- C 209.11. Toilet Facilities: Contractor's personnel will be permitted to use existing toilet facilities, if available, on the work premises unless disapproved by the Contracting Officer or his/her designated representative, on an individual delivery order basis. If toilet facilities are not available the Contractor shall provide portable restroom units for his employees on the job site at his/her expense.
- C 209.12. Security At The Work Site: Whenever facility security is breached to perform work required under this contract, the Contractor will be responsible for providing temporary measures in order to assure security is maintained at the level existing prior to construction. The Contractor shall provide adequate protection at his cost against vandalism and theft for all parts of the building wherever work under this contract is performed. This may include such security items as fencing around a facility or closing all openings in a structure during non-working hours.
- C 209.13. Equipment On The Work Site: Contractor shall store all supplies and equipment on project site so as to preclude theft or damage. The Contractor shall cover equipment that is to remain in-place within the area of work and protect it against loss or damage. Equipment removed in performance of work where directed for reuse in work as required by drawings and/or the Statement of Work shall be satisfactorily stored. Equipment temporarily removed shall be protected, cleaned, and replaced equal to its condition prior to starting work. Security for equipment and material that is to be reused and is removed for temporary storage shall be the sole responsibility of the Contractor. Contractor shall maintain the work site in a safe and orderly manner.
- C 209.14. Fill Materials: Excess fill material, including rock, gravel, sod, broken concrete or asphalt, plaster, etc., shall be hauled off Whiteman AFB grounds and disposed of in accordance with applicable state and local regulations. Additional fill material shall be hauled to the site from off the Whiteman AFB grounds as a necessary part of the work.
- C 209.15. Roadways:
- C 209.15.1. Cleanliness Of Paved Surfaces: When paved surfaces are jointly used by the Air Force and Contractor, the Contractor shall keep all paved surfaces, such as runways, taxiways, and hardstands, clean at all times and, specifically, free from small stones which might damage aircraft propellers or jet aircraft. In restricted areas the traveled areas shall be cleaned using a self-propelled vacuum, vacuum truck, or other appropriate equipment and shall be cleaned to the approval of the using agency through the Contracting Officer's representative.
- C 209.15.2. Hauling: Loose debris on trucks leaving the site shall be loaded in a manner that will prevent dropping of materials on streets and conform to local ordinances and laws. Fasten suitable cover, such as a tarpaulin, over the load before entering surrounding streets. The Contractor shall be responsible for cleaning up materials that fall from trucks immediately after he/she becomes aware of it. This shall include cleaning up mud, rocks, trash or any other type of debris spilled. Clean up shall be performed to the satisfaction of the Contracting Officer.

C 209.15.3. Load Limits On Pavement: Vehicle traffic on concrete pavement shall be restricted to equipment with pneumatic tires.

C 209.15.3.1. The limit for vehicular loading on all areas of concrete over building structures and access bridges shall be a pickup type truck with a payload not to exceed 1,000 pounds or a gross vehicular load of 5,000 pounds.

C 209.15.3.2. The limit for vehicular loading on concrete access ramps and "on-grade" concrete pavement shall be 5,000 pounds per vehicle wheel. For the purpose of this limitation, dual wheels shall be considered as two wheels.

C 209.16. Traffic Control: The Contractor shall comply with the recommendations contained in Part 6 of the U.S. Department of Transportation, Federal Highway Administration's Manual on Uniform Traffic Control Devices (D6.1-1978) to insure proper warnings to motorists and adequate traffic control. All signs, warning lights, barricades, and other traffic control devices shall be provided by the Contractor at his/her expense.

C 209.17. Upkeep And Work Adjacent To Roads And Highways: In addition to the requirements in the contract clause entitled "Operations and Storage Areas," (FAR 52.236-10 (Apr 1984)) the Contractor shall comply with the following requirements: Where the construction work is on or adjacent to, or involves hauling over public or private roads, streets, or highways, as herein referred to as "roads," the said roads shall, except as otherwise specified or directed, be kept open for traffic at all times during the construction period. Further, the Contractor shall, during said construction, provide, erect and maintain warning signs, lanterns or torches or other safety devices and, when necessary, provide flagmen for protection of traffic to the satisfaction of the Contracting Officer and local authorities. The Contractor shall keep the right-of-way of the roads free of debris that might be caused to accumulate thereon by his operations, and upon completion of the work, shall clean up the said roads and repair any damage to the roads occasioned by his operations under this contract to the satisfaction of the Contracting Officer and the Highway Department. The drainage from the roads shall not be obstructed by the construction work. The Contractor shall be responsible for obtaining and paying for all permits required for operation on all roads.

C 209.18. Cleanup And Disposal Of Debris: At the end of each work day, the Contractor shall clean the work area and stack building materials in a neat manner as approved by the Contracting Officer or his/her designated representative. Contractor shall ensure that trash is contained and not allowed to be blown around by the wind. Upon completion of the work, the Contractor shall ensure that all dirt, trash and debris resulting from construction operations is removed from the work area. Disposal of debris shall be made by the Contractor at his/her expense. All debris shall be delivered to a state approved sanitary landfill. **Notice:** The disposal of demolition waste is regulated by the Department of Natural Resources under chapter 260 , RSMo. Such waste, in types and quantities established by the department, shall be taken to a demolition landfill or a sanitary landfill for disposal.

C 209.19. Precautionary Measures. It is the Contractor's responsibility to take all necessary precautions to minimize delays resulting from weather conditions. This may include, but is not limited to, trenching, protective covering(s), temporary structures (walls to prevent mud slides), etc.

C 210 AIRFIELD REQUIREMENTS:

C 210.1. The Contractor shall contact Base Operations, Whiteman AFB, for construction restrictions involving the flightline, taxiway, and runway areas and shall comply with Air Force regulations.

C 210.2. Government provided two-way VHF radio contact shall be maintained with Base Operations and all vehicles, equipment, Contractor and Subcontractor personnel working on the flightline, taxiways, and runways. The frequency shall be addressed at the Pre-Construction Conference.

C 210.3. See DFARS Clause 252.236-7005. (IA 474)

C 211 UTILITIES SERVICES: (FAR 52.236-14)

C 211.1. Government Provision: Available water and electricity for Delivery Orders may be used in reasonable quantities in this work at no cost to the Contractor. The Contractor shall make arrangements for such services with the Contracting Officer or his/her designated representative.

C 211.2. Contractor-Caused Outage: All temporary outages of any utility services required for the performance of work shall be scheduled with the Civil Engineer Squadron no less than seven (7) calendar days in advance of outages. Requests shall be made in writing to the Contracting Officer. Requests shall stipulate specific utility system(s) (and circuits) to be affected, the location of the work, the time at which the shutdown will occur, and the duration of the outage for each system. Outages shall be kept to a minimum both in number and duration. Where multiple outages are required, as many outages as can be accurately scheduled shall be submitted as a group.

C 211.2.1. In the event of a Contractor caused utility failure/disruption, the Contractor will first make the area safe, then immediately contact the Base Civil Engineer Service Desk (687-6350 or 687-6380) and the Contracting Officer.

C 211.2.2. If the damaged utilities are previously known or shown to the Contractor, or there is negligence on his/her part, the utilities will be repaired by the Contractor in a timely manner at no cost to the Government.

C 211.3. Government Responsibility: The Government will approve service tie-in points, disconnect and reconnect utility service for Contractor tie-ins. Connections to these tie-in points shall be the responsibility of the Contractor. Civil Engineer personnel are responsible for the switching to de-energizing and energizing of all utility systems.

C 211.4. Interruption Of Service: The Government may not be held responsible for interruptions of utility service and will not be liable for Contractor delays, damages, or increased costs occasioned by any interruption of service.

C 211.5. Contractor Responsibility: The Contractor shall be responsible for installing and maintaining temporary cords, lines, or other equipment in a safe condition. Only compatible adapters shall be utilized for hydrant connections. A hydrant wrench of correct size shall be used to control the flow. Temporary connections to fire hydrants shall be disconnected at the end of each work day. The temporary connections shall be controlled with an auxiliary valve such that the hydrant remains at a full-open or full-closed position, and a backflow preventer.

C 211.6. Prior to Final Acceptance: All temporary cords, lines, or other equipment shall be removed and the existing outlets and lines restored to the condition existing prior to the start of construction.

C 211.7. Existing Utility Verification: The locations, sizes, and types of all utility lines shown on the Plans are for informational purposes only and are not to be relied upon without verification by exploratory digging. The Contractor shall verify the field location of all existing underground utilities in service within the immediate area of any proposed construction which may conflict with existing utilities. No less than ten (10) working days written notice shall be given (see para H 211.8) by the Contractor for locating and flagging of existing utilities. The Contractor shall excavate exploratory trenches in the presence of representatives from all utility companies and the Contracting Officer or the Contracting Officer's representative. The trench shall be a minimum of three (3)-feet wide and excavated to a depth at least two (2) feet below the respective construction shown on the plans, or deeper if directed by the Contracting Officer or the Contracting Officer's representative. Hand diggings, probing, and remote detection

techniques shall precede machine excavation and shall be in accordance with state and local requirements for such techniques. It is the responsibility of the Contractor to protect all utilities which are to remain in service for the duration of the project construction, or until their abandonment is directed by the Contracting Officer or the Contracting Officer's representative.

- C 211.8. Excavation permits: The Contractor shall obtain and process a written excavation permit (AF Form 103, Base Civil Engineer Work Clearance Request) before starting any excavation on this project. The AF Form 103 also requires the Base Civil Engineer's or his/her authorized representative signature. Contractor shall allow a minimum of ten (10) working days from date of application to process the excavation permit. This excavation permit provides notification of owner/operator underground utilities through Missouri One Call system 1-800-344-7483 and 1-800-DIG-RITE.
- C 211.9. Utility Marking Of Yet To Be Accepted Work: The Contractor shall be required at the request (in writing three (3) calendar days) of other contractors working in the area to flag the utilities being installed on his/her specific contract within ten (10) working days of the request.
- C 211.10. Protection Of Utility Lines: It shall be the Contractor's responsibility to protect all existing utility lines from damage during excavation for utilities systems. Any damage resulting to existing utility systems shall be repaired by the Contractor, to the satisfaction of the Contracting Officer, at no additional cost to the Government.
- C 211.10.1. Existing buried utility lines will be marked to delineate a four (4) foot area of liability. Any damage done to an existing line within two (2) feet of the flag shall be repaired by the Contractor. If the damage occurs outside the area, Civil Engineer will assume responsibility for needed repairs.
- C 211.11. Base Policy For The Operation Of All Hydrants And Valves On The Base Water Distribution System: The following is the base policy for the operation of all hydrants and valves on the base water distribution system:
- C 211.11.1. The Contractor shall immediately notify the fire alarm communication center at 687-4507 or 687-4508, of out-of-service hydrants, sprinkler system, stand pipes, etc. and the alarm room will also be notified when hydrants are returned to service.
- C 211.11.2. Civil Engineer personnel are responsible for operation of all valves and is the only organization authorized to open or close these valves. In an emergency (water main break) the Contractor may close a valve and notify the Fire Department at 687-4507 or 687-4508 and Utilities in building 2012 at 687-4259 or 687-6537 immediately.
- C 211.11.3. When fire hydrants are out-of-service the Fire Department will immediately place a metal placard 12 inches in diameter with waterproof white letters on a red background reading "OUT-OF-SERVICE". The placards will be placed in a way that identifies hydrants from approaching direction.
- C 211.11.4. When fire hydrants are placed back in service, the Fire Department will immediately remove placards.
- C 211.11.5. Every effort will be made to return hydrants to service as soon as possible. Hydrants awaiting parts will be assigned an emergency work order. When hydrants are shut down due to construction, call the Fire Department as listed above.
- C 211.11.6. The use of fire hydrants by other than fire protection personnel will be coordinated and approved by the Base Fire Chief. Such use will not render the hydrant inoperative for fire protection operations.

C 212 SURVEY MARKERS: Reference is made to the Contract Clause entitled “Permits and Responsibilities” (FAR 52.236-7), Chapter 60 of the Missouri Revised Statutes 1969, and rules titled “Maintenance of the Original US Public Land Survey Corners” adopted by the Division of Geology and Land Survey, Missouri Department of Natural Resources.

C 212.1. The Contractor shall be responsible for removing and relocating survey markers. Relocation shall be performed by a professional registered Land Surveyor.

DELIVERY ORDER PROCEDURES

C 301 CONTRACT ADMINISTRATION: Administration of the delivery orders under this contract will be performed by 509th Contracting Squadron, Whiteman AFB. No changes, deviations, or waivers shall be effective without a modification of the contract or delivery orders executed by the Contracting Officer authorizing such changes, deviations, or waivers.

C 301.1. Correspondence Identification: All correspondence and data submitted by the Contractor under this contract shall reference the Project Number, Delivery Order Number and Project Name.

C 301.2. Delivery Order Limitations: Delivery orders may be subject to statutory cost limitation.

C 301.3. Adjustments To Basic Prices: The Contracting Officer will include the current Davis-Bacon wage determination with the exercise of each option, and the Contractor will be required to pay those rates. The pricing database shall be updated annually, and line item costs will be based on those updates. The Contractor shall bear the cost of Means Pricing Guide Software updates.

C 302 ORDERING PROCEDURES:

C 302.1. Notification of Contractor: As the need exists for performance under the terms of this contract, the Contracting Officer, or his/her authorized representative, will notify the Contractor of a new requirement. The Contractor shall receive a scope of work consisting of a Statement of Work (SOW) in such detail that the Contractor will be able to lay out the work using the SABER Technical Specifications. The SOW may also include preliminary sketches or advance concept drawings, depending on the complexity of the particular project. The SOW and preliminary sketches are only conceptual documents. Once the Contractor’s drawings are approved by the Government and the negotiation process is complete, the Contractor shall provide a revised SOW to be approved by the Government. When approved, the revised SOW becomes attachment one to the delivery order. The final quantified negotiated line items become attachment two. The revised and approved construction drawings become attachment three.

C 302.2. Contractor’s Response: Upon receipt of the SOW, the Contractor shall respond to the needs of the Government as specified in para C 304.14 by:

C 302.2.1. Site Visits: A reasonable number of investigative visits to a proposed work site shall be completed in the company of the Contracting Officer or his/her authorized representative, Civil Engineer representative and other Government personnel as necessary. The purpose of the visit is for the Contractor to gather enough information to prepare the drawings/sketches, project estimate and revised Statement of Work; and

C 302.2.2. Establishing verbal contact with the Contracting Officer, or his/her authorized representative, to further define the scope of the requirement.

C 302.3. Contractor's Proposal: Upon establishing the scope of the individual requirement, the Contractor shall then prepare his/her proposal for accomplishment of the task.

C 302.3.1. The R.S. Means Computerized Pricing Guide, Facilities Construction Cost Data, Mechanical Cost Data, Plumbing Cost Data, Electrical Cost Data, Assemblies Cost Data, Site Work & Landscape Cost Data, Interior Cost Data and Concrete & Masonry Cost Data shall serve as the basis for establishing the value of the work to be performed on a unit price basis.

C 302.3.1.1. Costs of items in Division 1 of the Means Facilities File Data Base are already included in the line item cost extension for that item. Therefore, such items as small tools, and other Division 1 items not specifically included below are to be considered as included in the factor and the line item extended price. The following items from Division 1 of the Means Facilities File Data Base shall not be included in the pricing factor and may be added or used as separate and distinct line items when preparing estimates for Delivery Orders:

C 302.3.1.1.1. Division 01107/700, Surveying

C 302.3.1.1.2. Division 01450/500 Testing

C 302.3.1.1.3. Division 01540/750 and /755, Scaffolding and Scaffolding Specialties

C 302.3.1.1.4. Division 01590/all, Equipment Rental (this may be used only if the other line item chosen does not include equipment necessary to perform the work).

C 302.3.1.2. Prices associated with assemblies (where assembly costs are provided of in R,S, Means Assemblies Cost Data) shall take precedence over prices for individual items.

C 302.3.1.3. Waste of excess material quantities is incidental costs, which are included within the contract-pricing factor. Quantities used on individual task order proposals shall be taken from field measurements or design plans, as appropriate, without allowance for waste unless Means authorizes under individual line items.

C 302.3.1.4. Costs for expendable supplies, lubricants, wear and tear on tools, are included in the installation/construction costs in the MEANS cost of construction and will not be paid separately.

C 302.3.1.5. Removal/Reinstallation Cost Correction: The cost of removing and reinstalling existing items, (other than items described in the Contractor's coefficient), which have to be removed and reinstalled during the course of construction work shall be priced as to equivalent MEANS (or correction factor) bare demolition cost of the item plus the MEANS bare installation cost for the item minus the cost for materials.

C 302.3.1.6. Additional Priced Items: The items shown in Attachment 7 shall be inserted into the Means Computerized Pricing Guide and Pulsar Program.

C 302.3.2. Non-priced work to be included in each delivery order may be proposed by the Contractor or Government. In instances where the proposal contains more than 10 percent non-priced items, the Contractor will be notified within 3 working days on whether the Government will proceed with negotiations.

C 302.3.3. The Contractor's proposal must be supported by necessary documentation to indicate that adequate engineering and planning to accomplish the requirement have been done. Examples of documentation that might reasonably be expected would include drawings, calculations, catalog cuts, specifications, architectural renderings, etc.

- C 302.3.4. The time allowed for submittal of the Contractor's proposal for non-emergency individual requirements will be as agreed upon by the Government and the Contractor not to exceed stated time in para C 304.14.
- C 302.3.5. If the government specifies an item, which meets both the R.S. Means definition and the characteristics called out in the technical specifications, the Contractor shall be obligated to furnish that item regardless of the actual cost compared to the R.S. Means cost.
- C 302.4. Drawings: Graphical representations (in the quality, detail, and professionalism) documenting the work required by each Government project. The drawings must be thorough and detailed enough to allow:
- C 302.4.1. The Government and the Contractor to estimate the number and type of prepriced and non-prepriced items required to successfully perform all work;
- C 302.4.2. Government personnel to monitor and validate work compliance; and
- C 302.4.3. The Contractor to satisfactorily complete all work requirements by Delivery Order completion date, including providing required submittals and other documentation as needed.
- C 302.5. Negotiation: Upon receipt of the Contractor's proposal, the Government will review the proposal for completeness and accuracy. Upon the Government's acceptance of the design drawings, the Contractor shall prepare a fully detailed cost estimate to complete the project. The Contracting Officer or authorized representative will negotiate with the Contractor the appropriateness of selected line items, quantities required for all pre-priced and non-pre-priced items, and the performance time.
- C 302.5.1. The Contractor shall provide the Contracting Officer with two (2) hard copies and two (2) electronic copies of the proposed line item identifiers with no quantities.
- C 302.5.2. After the line item identifiers are approved by the Contracting Officer or his/her authorized representative, the Contractor shall provide the Contracting Officer with three (3) hard copies and two (2) electronic copies of all agreed upon line items with no quantities.
- C 302.5.3. The Contractor shall provide the Contracting Officer with two (2) hard copies and one (1) electronic copy of the approved line items and proposed quantities.
- C 302.5.4. After the quantifiers are approved by the Contracting Officer or his/her authorized representative, the Contractor shall provide the Contracting Officer with five (5) hard copies of all agreed upon line items and quantities.
- C 302.5.5. Failure of the Contractor to not include all necessary line items or incorrect quantity on a line item will not be considered grounds for addition funds to make up for the shortcomings if there has not been a change in scope or a change in site conditions. The Contractor will still have to finish the project at the agreed amount.
- C 303 NON-PRICED WORK:** Items of work not covered by this contract, but within its scope and intent, may be negotiated by the Contracting Officer, or his/her designated representative, and added by modification at any time during the contract period. Added items of work shall be incorporated into and made a part of the delivery order and shall be performed at the negotiated unit price and multiplied by the applicable coefficient bid by the Contractor. Previously non pre-priced work items may subsequently be added to the basic tasks defined in the SABER Technical Specifications after usage of only one time. The total percentage and cost of each non-priced line item shall be annotated on each delivery order.

- C 303.1. Non-Priced Items: All non-priced items shall be negotiated on an individual basis. The non-priced item shall be determined by three (3) written estimates from verifiable sources (published price list, subcontractor quote or estimate, etc.) provided by the Contractor to the Contracting Officer for verification and approval. The estimate shall be certified by the material supplier as being as low or lower than those normally charged for the particular item. The cost to the Government of each non-pre-priced performance item shall be calculated as follows:
- C 303.1.1. The estimate shall be increased by 10 percent, allowing for the Contractor's overhead and profit.
- C 303.1.2. The sum of the estimate and overhead and profit shall be multiplied by the appropriate coefficient.
- C 303.1.3. Labor shall be an additional cost, if required. The cost shall be calculated per the standard hourly wage rates as dictated by the Specifications. The hourly rate shall then be multiplied by the required number of hours. That product shall be multiplied by 1.5 to account for labor burden, overhead and profit. That product shall be multiplied by the applicable coefficient, resulting in the actual labor price.
- C 303.2. A listing of the Non-priced work by Delivery Order number, dollar and percentage for each fiscal year shall be provided to the Contracting Officer in writing by close of business on 1 October of each year.
- C 303.3. Non-Priced items shall be added to the price book by contract modification after they have been used in one delivery order.

C 304 SABER PROJECT ESTIMATING:

- C 304.1. Contract Line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112 allow the Government to issue the Contractor a delivery order for all work incidental to developing a project; without obligating the Government to issue the Contractor a project.
- C 304.2. The Government's intent for contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112 is to obtain an exact price for projects that are being considered for SABER construction. It is not the Government's intent to have the Contractor provide an estimated service for projects with no initial serious SABER construction consideration. The Contractor agrees that the Government is not obligated to issue the Contractor a delivery order for the construction work described in the completed project estimate.
- C 304.3. Upon Government acceptance of contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112, the Contractor may immediately invoice for the completed design estimate. If, within 1 year after Government acceptance of contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112, the Government elects to have the Contractor construct the work described in the project estimate, the construction project price will be adjusted downward in an amount equal to that already invoiced for.
- C 304.4. If the Government and the Contractor cannot come to an agreement on project price, contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112 will not be accepted and the Contracting Officer will make an equitable adjustment for the Contractor's work up to that point.
- C 304.5. If the Contractor does not receive notice of the Government's intent (to have the Contractor construct the work described in the completed project estimate) within 1 year after the Government's acceptance of

contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112, the Government no longer has the option of having the Contractor construct the work described in the completed project estimate while at the same time adjusting the price downward in an amount equal to that already invoiced for. The Government may, however, issue a delivery order to reopen the project as a new requirement covered by contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112 with no adjustment for previous work completed by the Contractor.

- C 304.6. If the project estimate includes only pre-priced items, the Government may instruct the Contractor to construct the work described in the completed project estimate any time during contract performance. If the project estimate includes non pre-priced items, the Government has up to 120 calendar days after Government acceptance of contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112 to instruct the Contractor to construct line item work described in the completed project estimate at the price stated in the completed project estimate. However, if the Government exceeds 120 calendar days in instructing the Contractor to construct the work described in the completed project estimate, the Contractor will be given the opportunity to revise the initial project estimate. Also, if the Government exceeds 120 calendar days in instructing the Contractor to construct the work described in the completed project estimate, the Contractor must identify non pre-priced items in the completed project estimate that have subsequently become pre-priced items via contract modification. The price of these items will be changed to reflect the pre-priced price.
- C 304.7. The project magnitude as stated in the Schedule of Offers, in section B (level 1, 2, 3, and 4) shall be stated in each Government request for project estimating. The Contractor shall immediately notify the Contracting Officer if the project estimate will differ from the project magnitude. The Contracting Officer will take action to ensure the project stays within the magnitude or ensure the Contractor/Government is equitably adjusted for the change in magnitude. The project magnitude includes the coefficient factor as stated in the Schedule of Offers, Section B of the Bidding Schedule.
- C 304.8. Within one (1) year after Government acceptance of contract line items 000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112, any Government decision to use non-SABER methods to award a contract for other construction of work described in a SABER completed project estimate will not be based on price considerations.
- C 304.9. All estimates will reflect the coefficient factor as of the time of submission. If the coefficient factor changes by the time the Government elects to have the Contractor construct the work described in the completed project estimate, the resulting order for construction will reflect the new coefficient factor.
- C 304.10. The agreed upon contract line item prices for project estimating as stated in Section B shall be counted as part of the cumulative value of ongoing work and will be subject to the limitations as explained in FAR Clause 52.216-19 "Delivery Order Limitations" (however, the \$2,000 minimum order limitation does not apply). Upon Government acceptance of the completed project estimate, the Contractor may decline an order to construct the work described in the completed project estimate if addition of the agreed upon project price to the cumulative value of ongoing work will result in the limits being exceeded. "Ordering" also applies to all contract line items (000109 Thru 000112, 100109 Thru 100112, 200109 Thru 200112, 300109 Thru 300112, and 400109 Thru 400112).
- C 304.11. Line items in the R S Means Pricing Data Base are not negotiable as it pertains to the production rate for labor, materials and equipment of the line items.
- C 304.12. Price of Performance: All individual costs for items of performance both pre-priced and non-pre-priced, contained in a proposed Delivery Order, shall be added. That sum shall be the cost to the Government of the Delivery Order. The individual cost for items of performance shall be determined as follows:

C 304.12.1. Pre-priced Items: The base cost of pre-priced items of performance shall be determined based on the R.S. Means Computerized Pricing Guide, Facilities Construction Cost Data, Mechanical Cost Data, Plumbing Cost Data, Electrical Cost Data, Assemblies Cost Data, Site Work & Landscape Cost Data, Interior Cost Data and Concrete & Masonry Cost Data, which shall be updated annually at the expense of the Contractor. The cost to the Government of each pre-priced performance item shall be calculated as follows:

C 304.12.1.1. The “Total Including Overhead and Profit” column figure for a particular performance item as dictated by the corresponding R.S. Means Computerized Pricing Guide (CPG) shall be multiplied by the associated R.S. Means City Cost Index Weighted Average for Kansas City, Missouri. For example, the corresponding figure for the 2004 R.S. Means City Cost Index Weighted Average for Kansas City, Missouri, for material is 99.4 percent.

C 304.12.1.2. This product shall be multiplied by the required number of units.

C 304.12.1.3. The resulting product is then multiplied by the corresponding coefficient. This final product is the cost of that specific item of performance.

C 304.12.1.4. Negotiation may occur between the Government and the Contractor; however, that negotiation will involve only decisions concerning which particular line item is most correct for the particular item of performance and the number of units required in order to fulfill the request for performance.

C 304.13. Government-Provided Design: At any time within the contract period the Government may provide a Government-provided design for the Contractor to price. After negotiation and acceptance of the proposal, the Government may elect to have the Contractor construct the work as negotiated.

C 304.13.1. If the project estimate includes only prepriced items the Contracting Officer may instruct the Contractor to construct the project from the completed design multiplied by the current coefficient rate, less the cost of the portion of the Government provided design cost per Section B: note 5.

C 304.14. Performance Time: In working days.

DESIGN TIME ALLOWED BASED ON PROJECTED MAGNITUDE

<u>TASK DESCRIPTION</u>	<u>LEVEL 1</u> <\$25K	<u>LEVEL 2</u> \$25,001-\$100,000	<u>LEVEL 3</u> \$100,001-\$250,000	<u>LEVEL 4</u> >\$250,001
Visit the work site with the Contracting Officer, SABER project manager and/or designated representatives within:	3	3	3	3
<u>Submit Contractor Provided Design</u> after site visit within:	7	9	10	11
<u>Submit Cost Estimate</u> after finalized design approved:	3	5	7	7

In unusual circumstances (e.g., a difficult to find/price NPI item, a very complex project, etc.), additional time may be considered by the Contracting Officer if requested by the Contractor.

C 305 PREPARATION OF PROGRESS SCHEDULES AND REPORTS: (AFFARS 5336.291) The progress schedules and reports for this contract shall be prepared using AF Form 3064 (Project Schedule) and AF Form 3065 (Progress Report) in four (4) hard copies. Progress reports shall be prepared for all projects with performance times 60 days and over.

C 306 MEETINGS AND CONFERENCES:

C 306.1. Pre-Construction Conference: A meeting attended by designated representatives of the Government, the Contractor and Customer after project award but before the start of work to discuss all aspects of the required work for a delivery order.

C 306.2. Coordination Meeting: After the Preconstruction Conference, before start of construction, and prior to acceptance by the Government of the Quality Control Plan, the Contractor shall meet with the Contracting Officer or his/her authorized representative to discuss the Contractor's quality control system. During the meeting, a mutual understanding of the system details shall be developed, including the forms for recording the CQC operations, control activities, testing, administration of the system for both on-site and off-site work, and the interrelationship of Contractor's Management and control with the Government's Quality Assurance. Minutes of the meeting shall be prepared by the Contractor, approved and signed by both the Contracting Officer and Civil Engineer Representative. The minutes shall become a part of the contract file within 3 working days. There may be occasions when subsequent conferences will be called by either party to reconfirm mutual understandings and/or address deficiencies in the CQC system or procedures which may require corrective action by the Contractor.

C 306.3. Work Scheduling Meeting:

C 306.3.1. Weekly: A weekly meeting between the Contractor's Project Manager, the Government's Construction Manager(s), and the Contracting Officer's representative shall be held to discuss any problems or scheduling of work. At this meeting the Contractor shall submit two (2) copies of his proposed daily work schedule for the next two (2) week period. Required temporary utility services, time and duration of interruptions, road cuts, and repairs requiring traffic control, and protection of adjoining areas shall be included with the Contractor's proposed two (2) week work schedule. Coordination action by the Contracting Officer relative to these schedules will be accomplished during these weekly meetings. The Contracting Officer may cancel or reschedule as needed.

C 306.4. Safety Assurance:

C 306.4.1. Safety Meeting: The Contractor shall keep a Safety Meeting log of weekly meetings held with his /her employees on Safety and the Government has the right to inspect it at any time. Representatives of the Contractor shall meet with the Contracting Officer and his/her representative(s) prior to the start of repair, alteration or construction activities for the purpose of reviewing the Contractor's safety and health programs and discussing implementation of all safety and health provisions pertinent to the work to be performed under the contract. The Contractor shall be prepared to discuss, in detail, the measures he/she intends to take in order to control any unsafe or unhealthy conditions associated with the work to be performed under the contract. This meeting may be held in conjunction with the preconstruction conference, if so directed by the Contracting Officer. The conduct of this meeting is not contingent upon a general preconstruction meeting. The level of detail for the safety meeting is dependent upon the nature of the work and the potential inherent hazards. The Contractor's principal on site representative(s), the general superintendent, and his/her safety representative(s) shall attend this meeting.

C 306.4.2. Requirement for Safety Coordination: The Base Civil Engineer, or his/her authorized representative, shall be the determining office for each design requiring coordination with other safety offices, such as Ground Safety, Environmental, etc.

C 306.5. Annual Conference: As a minimum, a program management review conference will be held annually during the month of May. Program management will be discussed to include; Contract Quality Control, Timely Performance, Effectiveness of Management, Compliance with Labor Standards, and Compliance with Safety Standards. The conference minutes will be recorded by the Contracting Officer's

Representative, transmitted to the Contractor and signed by the Contractor, Base Civil Engineer and Contracting Officer. The meeting will be sponsored by the Contracting Officer and attended by the Base Civil Engineer or his/her representative, the Construction Manager, and the Contractor's Principle Officer/Owner, his/her representatives and other Government personnel may attend as required. The purpose of the meeting is to foster quality through feedback and open communication.

C 307 TIME EXTENSIONS FOR UNUSUALLY SEVERE WEATHER:

C 307.1. This provision specifies the procedure for determination of time extensions for unusually severe weather. In order for the Contracting Officer to award a time extension under this clause, the following conditions must be satisfied.

C 307.1.1. The weather experienced at the project site during the contract period must be found to be unusually severe, that is, more severe than adverse weather anticipated for the project location during any given month.

C 307.1.2. The unusually severe weather must actually cause a delay to the completion of the project. The delay must be beyond the control and without the fault or negligence of the Contractor.

C 307.2. In accordance with the Contract Clauses entitled "Default" Fixed Priced Construction FAR 52.249-10 the following schedule of monthly anticipated adverse weather delays is based Whiteman AFB Mo base weather service climate 30 year brief or similar data for the project location and will constitute the base line for monthly weather time evaluations. The Contractor's progress schedule must reflect these anticipated adverse weather delays in all weather dependent activities.

MONTHLY ANTICIPATED ADVERSE WEATHER DELAY

WORK DAYS BASED ON (5) DAY WORK WEEK

<u>Jan</u>	<u>Feb</u>	<u>Mar</u>	<u>Apr</u>	<u>May</u>	<u>Jun</u>	<u>Jul</u>	<u>Aug</u>	<u>Sep</u>	<u>Oct</u>	<u>Nov</u>	<u>Dec</u>
(11)	(10)	(12)	(12)	(10)	(10)	(7)	(8)	(8)	(7)	(7)	(7)

C 307.3. Upon acknowledgment of the Notice to Proceed (NTP) and continuing throughout the contract, the Contractor will record on the daily CQC report, the occurrence of adverse weather and resultant impact to normally scheduled work. Actual adverse weather delay days must prevent work on critical activities for 50 percent or more of the Contractor's scheduled work day. The number of actual adverse weather delay days shall include days impacted by actual adverse weather (even if adverse weather occurred in previous month), be calculated chronologically from the first to the last day of each month, and be recorded as full days. If the number of actual adverse weather delay days exceeds the number of days anticipated in paragraph 307.2 above, the Contracting Officer will convert any qualifying delays to calendar days, giving full consideration for equivalent fair weather work days, and issue a modification in accordance with the Contract Clause entitled "Default (Fixed Price Construction)."

C 308 APPROVED EQUAL: The Statement of Work (SOW) drawings and the Technical Provisions of these specifications may, in some instances, refer to certain items of equipment, material, or article by trade name. References of this type shall not be construed as limiting competition, but shall be regarded as establishing a standard of quality.

C 309 NOT USED.

C 310 RECORD DRAWINGS: During the progress of the work, the Contractor shall keep a careful record at the job site of all changes and corrections from the layouts shown on the drawings, if applicable. The Contractor shall enter such changes and corrections on contract or record drawings promptly as neat red line changes to keep the record drawings current and submit drawings to the Contracting Officer in accordance with the schedule provided in the delivery order. The record drawings shall indicate, in addition to all changes and corrections, the actual location of all subsurface utility lines. In order that the location of these lines and appurtenances may be determined in the event the surface openings or indicators become covered over or obscured, the record drawings shall show, by offset dimensions to two (2) permanently fixed surface features, the end of each run including each change in direction. Valves, splice boxes, and similar appurtenances shall be located by dimensioning along the utility run from a reference point. The depth below the surface of each run shall also be recorded. At the time of beneficial occupancy of each structure or facility involved under the contract, the Contractor shall submit to the Contracting Officer as-built prints showing the aforementioned data. If the Contractor fails to maintain the record drawings as required herein, the Contracting Officer shall consider that satisfactory progress has not been achieved for the period in question.

C 310.1. "As-Built" shall be submitted in four (4) hard copies as a submittal for approval and on CD-ROM or Floppy disk legible by the Base using Autodesk Map 5 or later Computer Aided Drafting and Design (CADD) software.

C 310.2. All Drawings are to be prepared in a 2D CADD Format unless otherwise specified in the specific project delivery order. All drawings shall be 100% compatible with Autodesk Map 5 or later. Printed documentation shall be furnished with each individual drawing file detailing layer usage, scale, x-ref file usage, layouts and any plotting instructions required to produce a hard copy. Projects are to be submitted on CD-ROM. Upon pre-approval by and coordination with 509 CES CADD/GIS Administrator projects may be submitted by electronic transfer. For final selection Contractor will be required to submit a sample disk to confirm compatibility.

C 310.3. The following shall apply to all CADD drawings:

- C 310.3.1. All files to be prepared in 2D format with "Units" as follows:
Architectural Units: ', ' (foot mark, inch marks)
Resolution shall be set at 12 "Per" with 1000 "Pos Units Per"
- C 310.3.2. Drawings shall be referenced to a border supplied by 509 CES/CEC.
- C 310.3.3. Drawing border title blocks shall be completely filled in and correct including design file (.DGN) name and plot scale.
- C 310.3.4. When opened, drawing shall appear exactly as it should be plotted.
- C 310.3.5. When drawing is opened all required layers shall be visible and all unnecessary layers shall have been deleted.
- C 310.3.6. View 1 shall be the only view open in the file.
- C 310.3.7. View 1 shall be zoomed to fit the border.
- C 310.3.8. All unnecessary information outside of the border shall be deleted.
- C 310.3.9. Detach all unused reference files.
- C 310.3.10. When drawing is opened all reference files, including .rle or raster files, shall be visible and in correct orientation and scale to sheet border.

- C 310.3.11. Run Autodesk "Save" on each file once all the above instructions have been accomplished.
- C 310.3.12. All font resources used in the project shall be included with the drawing files, even if it is a standard Autodesk font resource.
- C 310.3.13. The Autodesk color table used to develop the drawings shall be delivered with the drawing files.
- C 310.3.14. An ASCII text file with any pertinent information, such as a brief history of how the file was created if it was converted from another software package, reference file usage, layer usage of both the Design file and attached reference files and name and phone number of person to contact should questions arise concerning the files.
- C 310.3.15. Hardcopy shall always be provided of each file to verify completeness of CADD files.
- C 310.3.16. Projects shall be georeferenced to Whiteman's real world coordinates compatible with Whiteman's Geobase initiative

C 311 DIFFERENCES IN DRAWINGS: In addition to the provisions of Contract Clause paragraph "Specifications and Drawings for Construction," the structural drawings shall govern in cases where they differ from the architectural drawings.

C 312 ACCEPTANCE:

- C 312.1. The Contractor shall notify the Contracting Officer in writing seven (7) calendar days prior to construction start of each individual delivery order to allow the Government sufficient time to notify the applicable using organization(s).
- C 312.2. When either a Suspension of Work is lifted or a modification is issued the Contractor shall notify the Contracting Officer within two (2) working days prior to construction start to allow the Government sufficient time to notify the applicable using organization(s).
- C 312.3. Pre-Final Inspection: Prior to requesting a Final Inspection, the Contractor shall request a Pre-Final Inspection. The request shall be made **in writing (ten) 10 calendar days** prior to the anticipated date of the Pre-Final Inspection. The Pre-final Inspection shall be conducted with the Government inspector, the contract administrator, the Contractor's quality control representative, the Contractor's project manager and any technical experts or other parties as deemed necessary by the Government. Any discrepancies noted during the pre-final inspection will be corrected prior to the final inspection. If discrepancies are noted during the pre-final inspection the Contractor shall state in writing a date when the discrepancies will be corrected and upon completion of the discrepancy correction will notify the Contracting Officer or his/her representative in writing the discrepancies have been corrected and request a final inspection.
- C 312.4. Notice of Completion of Delivery Order: When the Contractor is ready for the Final Inspection, he/she will request the inspection in writing to the Contracting Officer **five (5) working days** before the desired date.
- C 312.5. Final Inspection: The Final Inspection will be performed with the Contractor by the Government Inspector, the Contract Administrator, and other pertinent Government personnel. If any discrepancies are found the final inspection becomes a pre-final inspection. Accepted projects will be fully operational for the purpose intended. As-Builts and O&M manuals shall be submitted the date the final inspection is made. In the event the as-built submittal is disapproved, it will be resubmitted within two calendar days after disapproval.

C 313 CLOSEOUT OF DELIVERY ORDER: The closing out of various features of the contract shall be done before or on the Government contract construction completion date. The Contractor's specific submittals, Transfer and acceptance of Military Real Property (DD Form 1354) and items are required for closeout may include but, are not limited to Operation and Maintenance Manuals (O&M), training, spare parts, equipment list, guarantees, as-built shop drawings.

C 313.1. The following is a general list of the various types of closeout materials and the data required for each. (* indicate date required on initial submittal)

C 313.1.1. O&M Manuals: Descriptions, Specification Paragraph*, Date Due*, No. Copies Due*, Date Submit Action Code, Resubmit Date, Approved, Date to User, No. Copies

C 313.1.2. Training Requirements: Description*, Specification Paragraph*, Length Required*, Date Scheduled, Plan Submitted, Plan Approved, Date Training Held

C 313.1.3. Spare Parts Required: Description*, Specification Paragraph*, Quantity Required*, Date Turned Over to User

C 313.1.4. Salvaged Material: Description*, Specification-Plan Requirement*, Quantity*, Turn In Document Received

C 313.1.5. Government-Furnished Equipment: Description*, Specification-Plan Requirement*, GFCI-GFGI*, Number Required*, Date Equipment Date Required*, Date Equipment Required*, Turnover Document Provided

C 313.1.6. Utilities Provided or Relocated by Others: Description*, Relocate or Provide*, Specification-Plan Note*, Date Required*

C 313.1.7. Transfer and Acceptance of Military Real Property (DD Form 1354): Projects will be divided into areas of work and property, categorized by Air Force category codes and associate cost. Contractor will coordinate directly with 509 CES/CERR (Real Property) at 687-6299.

C 313.1.8. Final As Built Submittals:

C 313.1.9. Warranties:

C 313.1.9.1. Not later than the date the final invoice is submitted, the Contractor shall provide a listing to the Contracting Officer identifying as a minimum, the Delivery Order Number, the extent/location of work (Building number and extent of the work accomplished, e.g., entire roof, west wing, etc.), Project Number and Project Title; the date of final acceptance by the Government; and the date each warranty will expire.

C 313.1.9.2. In connection with these requirements, the Contractor shall furnish, in writing, the name, telephone number, and address of a licensed company which is authorized by the Contractor, to initiate and maintain warranty work action on their behalf. This single point of contact will be located within the local service area of the warranted work and will be responsive to Government inquiry on warranty work action and status. The single point of contact will respond to a call within the time periods as follows: 4 hours for heating, air-conditioning, refrigeration, air supply and distribution, and critical electrical service systems and food service equipment, and 24 hours for all other systems. The names, addresses, and telephone numbers for day, night, weekend, and holiday service responses shall be furnished to the Contracting Officer and also posted at a conspicuous location in each mechanical and electrical room or close to the unit. This submittal may be provided once if it is applicable to all projects.

- C 313.1.9.3. Compliance with this paragraph does not relieve the Contractor of any responsibility in connection with providing specific warranties and/or guarantees as required by this contract.
- C 313.1.9.4. In the event the Contractor or his/her designated representative fails to commence and diligently pursue any warranty work required within a reasonable time after notification, the Government shall have the right to have the work performed by others, and after completion make demand for reimbursement of any and all expenses incurred by the Government while performing the work, including, but not limited to, administrative expenses.
- C 313.1.9.5. Warranty repair work which arises to threaten the health or safety of personnel or the safety of property or equipment will be handled by the Contractor on an immediate basis as directed verbally by the Contracting Officer. Failure of the Contractor to respond as verbally directed will be cause for the Contracting Officer to have the warranty repair work performed by others and to proceed against the Contractor as outlined above.
- C 313.2. During the phase-out period, the incumbent Contractor shall be fully responsible for completion of all delivery orders issued within the contract term.
- C 314 CONTRACTOR-FURNISHED EQUIPMENT DATA:** Prior to final inspection and acceptance of the work, the Contractor shall submit the data mentioned in the following subparagraphs.
- C 314.1. Equipment List: An itemized equipment list showing unit retail value and nameplate data including serial number, model number, size, manufacturer, etc., for all Contractor-furnished items of mechanical equipment, electrical equipment, and fire protection systems installed under this contract.
- C 314.2. Guarantees: A list of all equipment items, which are specified to be guaranteed accompanied by a copy of each specific guarantee thereof. For each specific guaranteed item, a name, address, and telephone number shall be shown on the list and warranty sticker for subcontractor who installed equipment, equipment supplier or distributor and equipment manufacturer. The completion date of the guarantee period shall correspond to the applicable specification requirements for each guaranteed item.
- C 314.1. Warranty Stickers: The Contractor shall furnish and place equipment warranty stickers on all warranted equipment in the location designated by the Contracting Officer's representative. Warranty stickers shall include when warranty expires, who to contact for warranty work and the phone number for warranty work.

SUBMITTAL PROCEDURES

C 401 SUBMITTAL CLASSIFICATIONS: Submittals are classified as follows:

- C 401.1. Government Approved: Governmental approval is required for extensions of design, critical materials, deviations, equipment whose compatibility with the entire system must be checked, and other items as designated by the Contracting Officer. Within the terms of the Contract Clause entitled "Specifications and Drawings for Construction," they are considered to be "shop drawings".
- C 401.2. Re-Certification: If the Contractor intends to use previously approved materials or equipment, a letter certifying the specific material or equipment in lieu of a submittal is acceptable. The Certification letter will contain the delivery order number and two (2) approved copies of AF Form 3000 submittal.

C 402 APPROVED SUBMITTALS: The Contracting Officer's approval of submittals shall not be construed as a complete check, but will indicate only that the general method of construction, materials, detailed and other information are satisfactory. Approval will not relieve the Contractor of the responsibility for any error which

may exist, as the Contractor under the Contractor Quality Control (CQC) requirements of this contract is responsible for dimensions, the design of adequate connections and details, and the satisfactory construction of all work. After submittals have been approved by the Contracting Officer, no resubmittal for the purpose of substituting materials or equipment will be considered unless accompanied by an explanation of why a substitution is necessary.

C 403 DISAPPROVED SUBMITTALS: The Contractor shall make all corrections required by the Contracting Officer and furnish a corrected submittal. Corrected submittals shall be submitted within two (2) working days, after receipt of by the Contractor in the form and number of copies specified for the initial submittal. If the Contractor considers any correction indicated on the submittals to constitute a change to the contract, a notice in accordance with the Contract Clause "Changes" shall be given promptly to the Contracting Officer.

C 404 GENERAL: The Contractor shall make submittals as required by the specifications. The Contracting Officer may request submittals in addition to those specified when deemed necessary to adequately describe the work covered in the respective sections. Units of weights and measures used on all submittals shall be the same as those used in the contract drawings. Each submittal shall be complete and in sufficient detail to allow ready determination of compliance with contract requirements. Prior to submittal, all items shall be checked and approved by the Contractor's Quality Control (CQC) representative and each item shall be stamped, signed, and dated by the CQC representative indicating action taken. Proposed deviations from the contract requirements shall be clearly identified. Submittals shall include items such as: Contractor's, manufacturer's, or fabricator's drawings; descriptive literature including (but not limited to) catalog cuts, diagrams, operating charts or curves; test reports; test cylinders; samples; O&M manuals (including parts list); certifications; warranties; and other such required submittals. Submittals requiring Government approval shall be scheduled and made prior to the acquisition of the material or equipment covered thereby.

C 405 MATERIAL APPROVAL SUBMITTAL FORM (AF Form 3000): (AFFARS 5336.290)

C 405.1. The Contractor shall fill out and submit a Material Approval Submittal (AF Form 3000) listing items of equipment and materials which are required by the specifications; this list may not be all inclusive and additional submittals may be required. Submit the material submittals and shop drawings to the Contracting Officer for approval within ten (10) calendar days after issuance of the Notice to Proceed for each delivery order.

C 405.2. Submittal Procedure: Submittals shall be made as follows:

C 405.2.1. Procedures: The Contractor shall submit to the Contracting Officer for approval four (4) copies of all submittals. Items not to be submitted in quadruplicate, such as samples and test cylinders, shall be submitted to the Contracting Officer accompanied by four (4) copies of AF Form 3000 (Material Approval Submittal).

C 405.3. Scheduling: Submittals covering component items forming a system or items that are interrelated shall be scheduled to be coordinated and submitted concurrently. Certifications to be submitted with the pertinent drawings shall be so scheduled. Adequate time (a minimum of ten (10) calendar days) shall be allowed for review and approval. An extension to the ten (10) calendar days submittal time frame may be granted for unique review situations.

C 405.3.1. Submittal registers (AF Form 66) shall be submitted by the Contractor prior to any material processing.

C 406 CONTROL OF SUBMITTALS: The Contractor shall carefully control his procurement operations to ensure that each individual submittal is made on or before the Contractor scheduled submittal date.

C 407 GOVERNMENT APPROVED SUBMITTALS: Upon completion of review of submittals requiring Government approval, the submittals will be identified as having received approval by being so stamped and dated. One copy of the submittal will be returned to the Contractor.

QUALITY CONTROL

C 501 REFERENCES: The publications listed below form a part of this specification to the extent referenced. The publications are referred to in the text by basic designation only.

C 501.1. AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

ASTM D 3740	(1994a) Minimum Requirements for Agencies Engaged in the Testing and/or Inspection of Soil and Rock as Used in Engineering Design and Construction
ASTM E 329	(1995b) Agencies Engaged in the Evaluation of Testing and/or Inspection of Materials Used in Construction

C 502 PAYMENT: Separate payment will not be made for providing and maintaining an effective Quality Control program, and all costs associated therewith shall be included in the applicable unit prices or lump-sum prices contained in the Bidding Schedule.

C 503 GENERAL: The Contractor is responsible for quality control and shall establish and maintain an effective quality control system in compliance with the Contract Clause entitled "Inspection of Construction." The quality control system shall consist of plans, procedures, and organization necessary to produce an end product which complies with the contract requirements. The system shall cover all construction operations, both on-site and off-site, and shall be keyed to the proposed construction sequence.

C 504 QUALITY CONTROL PLAN:

C 504.1. General: The Contractor shall furnish for review by the Government, not later than 20 calendar days after receipt of notice to proceed, the Contractor Quality Control (CQC) Plan proposed to implement the requirements of the Contract Clause entitled "Inspection of Construction" FAR 52.246-12. The plan shall identify personnel, procedures, control, instructions, test, records, and forms to be used. Construction will be permitted to begin only after acceptance of the CQC Plan by the Contracting Officer.

C 504.2. Content of the CQC Plan: The CQC plan shall include, as a minimum, the following to cover all construction operations, both on-site and off-site, including work by subcontractors, fabricators, suppliers, and purchasing agents:

C 504.2.1. A description of the quality control organization, including a chart showing lines of authority and acknowledgment that the CQC staff shall implement the three phase control system (Paragraphs 507.1, 507.2, 507.3) for all aspects of the work specified. The staff shall include a CQC system manager who shall report to the project manager or someone higher in the Contractor's organization. Project manager in this context shall mean the individual with responsibility for the overall management of the project including quality and production.

C 504.2.2. The name, qualifications (in resume format), duties, responsibilities, and authorities of each person assigned a CQC function. Any replacements must have similar qualifications.

C 504.2.3. A copy of the letter to the CQC System Manager signed by an authorized official of the firm which describes the responsibilities and delegates sufficient authorities to adequately perform the functions of the CQC System Manger, including authority to stop work which is not in compliance with the contract. The CQC System Manager shall issue letters of direction to all other

various quality control representatives outlining duties, authorities, and responsibilities. Two copies of each of these letters will also be furnished to the Contracting Officer.

- C 504.2.4. Procedures for scheduling, reviewing, certifying, and managing submittals, including those of subcontractors, off-site fabricators, suppliers, and purchasing agents. These procedures shall be in accordance with Section entitled SUBMITTAL PROCEDURES.
- C 504.2.5. Control, verification, and acceptance testing procedures for each specific test to include the test name, specification paragraph requiring test, feature of work to be tested, test frequency, and person responsible for each test. (Laboratory facilities shall be state approved.)
- C 504.2.6. Procedures for tracking preparatory, initial, and follow-up control phases and control, verification, and acceptance tests including documentation.
- C 504.2.7. Procedures for tracking construction deficiencies from identification through acceptable corrective action. These procedures will establish verification that identified deficiencies have been corrected.
- C 504.2.8. Procedures for managing subcontractors, tracking deficiencies and the means of correcting such deficiencies.
- C 504.2.9. Reporting procedures, including proposed reporting formats.
- C 504.2.10. A list of the definable features of work. A definable feature of work is a task which is separate and distinct from other tasks and has separate control requirements. It could be identified by different trades or disciplines, or it could be work by the same trade in a different environment. Although each section of the specifications may generally be considered as a definable feature of work, there are frequently more than one definable feature under a particular section. This list will be agreed upon during the coordination meeting.

C 504.3. Acceptance of Plan: Acceptance of the Contractor's plan is required prior to the start of construction. Acceptance is conditional and will be predicated on satisfactory performance during the construction. The Contracting Officer reserves the right to require the Contractor to make changes in his CQC plan and operations including removal of personnel, as necessary, to obtain the quality specified.

C 504.4. Notification of Changes: After acceptance of the CQC plan, the Contractor shall notify the Contracting Officer in writing a minimum of seven (7) calendar days prior to any proposed change. Proposed changes are subject to acceptance by the Contracting Officer.

C 505 QUALITY CONTROL ORGANIZATION: The Contractor shall identify an individual within his/her organization at the worksite who shall be responsible for overall management of CQC and have the authority to act in all CQC matters for the Contractor. This CQC System Manager shall be on the site at all times during construction and will be employed by the Contractor, except as noted in the following: an alternate for the CQC System Manager will be identified in the plan to serve in the event of the System Manager's absence. The requirements for the alternate will be the same as for the designated CQC Manager.

C 505.1. CQC Organizational Staffing: The Contractor shall provide a CQC staff which shall be at the worksite at all times during progress, with complete authority to take any action necessary to ensure compliance with the contract.

- C 505.1.1. CQC Staff: Following are the minimum requirements for the CQC staff. These minimum requirements will not necessarily assure an adequate staff to meet the CQC requirements at all times during construction. The actual strength of the CQC staff may vary during any specific work period to cover the needs of the work period. When necessary for a proper CQC organization,

the Contractor will add additional staff at no cost to the Government. This listing of minimum staff in no way relieves the Contractor of meeting the basic requirements of quality construction in accordance with contract requirements.

C 505.1.2. CQC System Manager: The CQC System Manager shall possess the knowledge, skills and abilities to carry out this function. The CQC System Manager shall be assigned no other duties.

C 505.1.3. Supplemental Personnel: In addition to CQC personnel specified elsewhere in the contract, the Contractor shall provide as part of the CQC organization specialized personnel to assist the CQC System Manager for the following areas: electrical and mechanical. These individuals shall be employees of the prime or subcontractor; be responsible to the CQC System Manager; be physically present at the construction site during work on their areas of responsibility.

C 506 SUBMITTALS: Submittals shall be made as specified in Section entitled SUBMITTAL PROCEDURES. The CQC organization shall be responsible for certifying that all submittals are in compliance with the contract requirements before submitting to Government.

C 507 CONTROL: The controls shall include at least three phases of control to be conducted by the CQC System Manager for all definable features of work, as follows:

C 507.1. Preparatory Phase: This phase shall be performed prior to beginning work on each definable feature of work and shall include:

C 507.1.1. A review of each paragraph of applicable specifications.

C 507.1.2. A review of the contract drawings.

C 507.1.3. A check to assure that all materials and/or equipment have been tested, submitted, and approved.

C 507.1.4. A check to assure that provisions have been made to provide required control inspection and testing.

C 507.1.5. Examination of the work area to assure that all required preliminary work has been completed and is in compliance with the contract.

C 507.1.6. A physical examination of required materials, equipment, and sample work to assure that they are on hand, conform to approved shop drawings or submitted data, and are properly stored.

C 507.1.7. A review of the appropriate activity hazard analysis to assure safety requirements are met.

C 507.1.8. Discussion of procedures for constructing the work including repetitive deficiencies. Document construction tolerances and workmanship standards for that phase of work.

C 507.1.9. A check to ensure that the portion of the plan for the work to be performed has been accepted by the Contracting Officer.

C 507.1.10. The Government shall be notified **at least 48 hours** in advance of beginning any of the required action by the preparatory phase. This phase shall include a meeting conducted by the CQC System Manager and attended by the superintendent, other CQC personnel (as applicable), and the foreman responsible for the definable feature. The results of the preparatory phase actions shall be documented by separate minutes prepared by the CQC System Manager and attached to the daily

CQC report. The Contractor shall instruct applicable workers as to the acceptable level of workmanship required in order to meet contract specifications. Exact location of initial phase shall be indicated for future reference and comparison with follow-up phases.

C 507.2. Initial Phase: This phase shall be accomplished at the beginning of a definable feature of work. The following shall be accomplished:

C 507.2.1. A check of preliminary work to ensure that it is in compliance with contract requirements. Review minutes of the preparatory meeting.

C 507.2.2. Verification of full contract compliance. Verify required control inspection and testing.

C 507.2.3. Establish level of workmanship and verify that it meets minimum acceptable workmanship standards. Compare with the definable features sample (prototype) element as appropriate.

C 507.2.4. Check safety to include compliance with and upgrading of the safety plan and activity hazard analysis. Review the activity analysis with each worker.

C 507.2.5. The initial phase should be repeated for each new crew to work on-site, or any time acceptable specified quality standards are not being met.

C 507.3. Follow-up Phase: Daily checks shall be performed to assure continuing compliance with contract requirements, including control testing, until completion of the particular feature of work. The checks shall be made a matter of record in the CQC documentation. Final follow-up checks shall be conducted and all deficiencies corrected prior to the start of additional features of work, which may be affected by the deficient work. The Contractor shall not build upon or conceal non-conforming work.

C 507.4. Additional Preparatory and Initial Phases: As determined by the Contracting Officer, additional preparatory and initial phases may be conducted on the same definable features of work if the quality of on-going work is unacceptable, if there are changes in the applicable CQC staff, on-site production supervision or work crew, if work on a definable feature is resumed after a substantial period of inactivity, or if other problems develop.

C 508 TESTS:

C 508.1. Testing Procedure: The Contractor shall perform specified or required tests to verify that control measures are adequate to provide a product which conforms to contract requirements. Testing includes operation and/or acceptance tests when specified. The Contractor shall procure the services of an approved testing laboratory or establish an approved testing laboratory at the project site. The Contractor shall perform the following activities and record and provide the following data to the Contracting Officer in writing in 4 Copies:

C 508.1.1. Verify that testing procedures comply with contract requirements.

C 508.1.2. Verify that facilities and testing equipment are available and comply with testing standards.

C 508.1.3. Check test instrument calibration data against certified standards.

C 508.1.4. Verify that recording forms and test identification control number system, including all of the test documentation requirements, have been prepared.

C 508.1.5. Results of all tests taken shall be submitted in 4 Copies to the Contracting Officer for approval as a submittal. Both passing and failing tests, will be recorded on the CQC report for the date taken. Specification paragraph reference, location where tests were taken, and the sequential control number identifying the test will be given. If approved by the Contracting Officer, actual test reports may be submitted later with a reference to the test number and date taken. An information copy of tests performed by an off-site or commercial test facility will be provided directly to the Contracting Officer. Failure to submit timely test reports as stated may result in nonpayment for related work performed and disapproval of the test facility for this contract.

C 508.2. Testing Laboratories

C 508.2.1. Capability Check: The Government reserves the right to check laboratory equipment in the proposed laboratory for compliance with the standards set forth in the contract specifications and to check the laboratory technicians' testing procedures and techniques. Laboratories utilized for testing soils, concrete, asphalt, and steel shall meet criteria detailed in ASTM D 3740 and ASTM E 329.

C 508.2.2. Capability Recheck: If the selected laboratory fails the capability check, the Contractor will be assessed a charge of \$2,500 to reimburse the Government for each succeeding recheck of the laboratory or the checking of a subsequently selected laboratory. Such costs will be deducted from the delivery order for which the capability recheck applies.

C 508.3. Laboratory: The Government reserves the right to utilize the Contractor's control testing laboratory and equipment to make assurance tests and to check the Contractor's testing procedures, techniques, and test results at no additional cost to the Government.

C 508.4. Furnishing or Transportation of Samples for Testing: Costs incidental to the transportation of samples or materials will be borne by the Contractor.

C 509 COMPLETION INSPECTION: At the completion of all work or any increment thereof established by a completion time stated in the Special clause entitled "Commencement, Prosecution, and Completion of Work," or stated elsewhere in the specifications, the CQC System Manager shall conduct an inspection of the work and develop a "punch list" of items which do not conform to the approved drawings and specifications. Such a list of deficiencies shall be included in the CQC documentation, as required by paragraph DOCUMENTATION below, and shall include the estimated date by which the deficiencies will be corrected. The CQC System Manager or staff shall make a second inspection to ascertain that all deficiencies have been corrected and so notify the Government for a prefinal inspection. These inspections and any deficiency corrections required by this paragraph will be accomplished within the time stated for completion of the entire work or any particular increment thereof if the project is divided into increments by separate completion dates.

C 510 DOCUMENTATION: The Contractor shall maintain current records providing factual evidence that required quality control activities and/or tests have been performed. These records shall include the work of subcontractors and suppliers and shall be on an acceptable form that includes, as a minimum, the following information:

C 510.1. Contractor/subcontractor and their area of responsibility.

C 510.2. Operating plant/equipment with hours worked, idle, or down for repair.

C 510.3. Work performed each day, giving location, description, and by whom.

C 510.4. Test and/or control activities performed with results and references to specifications/drawings requirements. The control phase should be identified (Preparatory, Initial, Follow-Up). List deficiencies noted along with corrective action.

- C 510.5. Submittals reviewed, with contract reference, by whom, and action taken.
- C 510.6. Job safety evaluations stating what was checked, results, and instructions or corrective actions.
- C 510.7. Instructions given/received and conflicts in plans and/or specifications.
- C 510.8. Contractor's verification statement: These records shall indicate a description of trades working on the project; the number of personnel working; weather conditions encountered; and any delays encountered. These records shall cover both conforming and deficient features and shall include a statement that equipment and materials incorporated in the work and workmanship comply with the contract. The original and one (1) copy of these records in report form shall be furnished to the Contracting Officer daily within 24 hours after the date(s) covered by the report, except that reports need not be submitted for days on which no work is performed. As a minimum, one (1) report shall be prepared and submitted for every seven (7) days of no work and on the last day of a no work period. All calendar days shall be accounted for throughout the life of the contract. The first report following a day of no work shall be for that day only. Reports shall be signed and dated by the CQC System Manager. The report from the CQC System Manager shall include copies of test reports and copies of reports prepared by all subordinate quality control personnel.

C 511 NOTIFICATION OF NONCOMPLIANCE: The Contracting Officer shall notify the Contractor in writing of any detected noncompliance with the foregoing requirements. The Contractor shall take immediate corrective action after receipt of such notice. Such notice, when delivered to the Contractor at the worksite, shall be deemed sufficient for the purpose of notification. If the Contractor fails or refuses to comply promptly, the Contracting Officer may issue an order stopping all or part of the work until satisfactory corrective action has been taken. No part of the time lost due to such stop orders shall be made the subject of claim for extension of time or for excess costs or damages by the Contractor.

WORK IN CONTROLLED AREAS

- C 601 GENERAL:** Because restricted areas are restricted access areas, working conditions will be subject to the following security restrictions and construction sequencing. All work within the controlled areas shall be performed under escort or established free zones.
- C 601.1. Construction Of Free Zone: Before any other work begins in areas designated as free zones, the barbed wire fence or jersey barriers shall be constructed. During this period, access to the site will be through the Entry Control Point (ECP) and workmen will be escorted at all times by Air Force Personnel as described under "Standard Entry Procedures". Refer to Section B of the bid schedule line items 000103 Thru 000106, 100103 Thru 10106, 200103 Thru 200106, 300103 Thru 300106, 400103 Thru 400106 work in controlled areas.
- C 601.2. Construction Start: Once the free zone is made operational, normal construction can begin. Access to the free zone sites during this time will be through the ECP and the procedures described under "Free Zone Procedures."
- C 601.3. Removal Of Free Zone: Once work under this contract is accepted as substantially complete, the free zone will be deactivated. The Contractor constructed barbed wire free zone fence, gates and jersey barriers shall be removed and the ground and pavement restored to its original condition at the Contractor's expense. This work will be done under the "Standard Entry Procedures" below. Refer to Section B of the bid schedule line items 000103 Thru 000106, 100103 Thru 10106, 200103 Thru 200106, 300103 Thru 300106, 400103 Thru 400106 work in controlled areas.
- C 601.4. Security Exercises And Convoys: When weapons convoy inter-area movements are formed in these areas, the Contractor will be prohibited from entering or leaving the affected areas. The Contractor, if

inside the area already, may be required to relocate his personnel from the convoy route which includes leaving the area. Convoys occur approximately 40 times per month with a 30 minute average duration time. During security exercises, the Contractor will not normally be required to leave the area. The security forces can respond into free zones for response to alarms from the perimeter when gates are blocking inner roads.

C 601.5. Additional Area And Flightline Movements: On an average of four (4) times per month, area and flightline movements shall require all movements on roads, including Contractor access route, Gate 14, etc., to halt.

C 601.6. Work Delays: Contractor may anticipate a work delay of up to 20 working days per delivery order during the contract period due to Whiteman AFB operations. This time is included in the overall completion time stated. Refer to Section B of the bid schedule line items 000103 Thru 000106, 100103 Thru 10106, 200103 Thru 200106, 300103 Thru 300106, 400103 Thru 400106 work in controlled areas.

C 601.7. Notification Of Movements: Contractor can expect a minimum of 24 hours notice for additional area and flightline movements and work delays.

C 602 RESTRICTED AREA ENTRY PROCEDURES: All Contractor personnel and employees will be under escort at all times while within the restricted area. The Base Escort Pool (coordinated and monitored by the 509 MXS in the WSA and by the 509 CES in the "B" area) will provide and perform all escort duties. The number of escorts will be determined by the requirements to provide at least one individual per work crew or work area. Each escort shall be able at all times to have visual contact with all members of the work crew. The Contractor shall restrict his personnel to the project construction areas within the restricted areas and shall limit construction operations to the work areas defined or indicated on the drawings. If access is required to other work areas, except for Base transit to enter or leave work areas, entry clearance shall be arranged through the Contracting Officer at least 72 hours in advance. Contractor shall provide a seven (7) calendar day notice in writing, to Contracting Officer, on all activities requiring escorts.

C 602.1. Entry Authorization Letter (EAL): Seven (7) calendar days prior to the initial start of construction in this area, the Contractor shall provide the Contracting Officer with a list of employees requiring entry. This list will include the full name, company name, date of birth, and last six numbers of social security number of each employee; the make, model, color, year, license number and state of each vehicle. Also included shall be where the restricted access is needed, why the restricted access is needed and for what duration. Subsequent additions to the EAL may be made by letter five (5) working days in advance of the employee's arrival. Employees who have been terminated or dismissed shall be removed from the entry list immediately. This is in addition to the EAL mentioned in C 203.20.

C 602.2. Personnel Entry: Only personnel on the EAL will be allowed into the area. All personnel will be subject to an I.D. check and a metal detector search each time they enter and exit the area. Once inside, they must be escorted at all times by Government personnel. All vehicles entering and/or leaving a restricted area will be searched by security personnel. Because of these personnel and vehicle searches and possible waiting time for escort arrival, the Contractor can expect personnel entry to take up to 15 minutes per person and vehicle processing in and out of the area up to 30 minutes. Each employee shall be required to carry two forms of identification. One form shall include a picture and both shall bear the employee's signature.

C 602.3. Vehicles: Only company-owned vehicles will be allowed inside a restricted area. No privately-owned vehicles will be permitted inside. Each vehicle must be identified by company name on both sides of the vehicle. Magnetic signs are acceptable. Vehicles and motorized equipment are not to be left unattended inside or within 100 feet of a restricted area unless immobilized by removing the key or other suitable means. Under no circumstances will vehicles be parked within 30 feet of the perimeter fence (both inside and outside of a restricted area). Pickup trucks and passenger vehicles shall be equipped with one fire

extinguisher per vehicle rated 4 B.C. All other vehicles shall have two extinguishers per unit rated 8 B .C. Vehicles shall be able to pass a state safety inspection.

C 603 FREE ZONE PROCEDURES: The free zone is the area within which the Contractor's personnel may move about freely without a personal escort. The boundary of the free zone shall be marked by a Contractor-constructed temporary three barb barbed-wire fence (Contractor furnished) in the WSA area and Contractor installed jersey barriers (Government furnished) in other secure areas and restricted area signs, enclosing the construction site as indicated. The fence shall consist of three strands of barbed-wire on posts along the free zone boundary. The fence shall be constructed prior to any other activity on the project work area. All gates in the free zone fence shall remain locked at all times using Contractor-provided chains and Government locks if applicable as determined by Security Forces.

C 603.1. Free Zone Entry List: Five (5) working days prior to the initial activation of a free zone, the Contractor shall provide the Contracting Officer with a list of employees authorized entry into the free zone. This list shall include the full name, social security number, and the company name for each employee: and the make, model, color, and license number of each vehicle. Subsequent additions to the list must be made in writing five (5) working days in advance of the employee's arrival. The Contractor shall notify the Contracting Officer in writing of any employee(s) who have been terminated or dismissed and their names shall be removed from the entry list immediately.

C 603.2. Entry Controller: All Contractor personnel desiring entry into a free zone and/or a restricted area must appear on the entry authorization letter.

C 603.3. Vehicles: The requirements of paragraph H 602.3 "Vehicles" also applies inside the free zone.

C 603.4. Free Zone Purge: The Contractor shall notify base escort pool in the restricted areas or Munitions Maintenance in the WSA area when work is completed at the end of each day and that he/she is ready to deactivate the free zone. A Security Force member and a Contractor representative shall conduct a purge of the free zone. The escort guards shall remain posted until the purge is complete. The Contractor's representative will ensure all tools, vehicles, and trailers are secure and all Contractor and Government personnel are out of the free zone. Any vehicle/trailers left inside a restricted area overnight must have the keys removed or be disabled to prevent movement. Parking locations will be approved by 509 SFS prior to vehicles being left inside a restricted area. Once this has been accomplished, the Contractor shall depart the free zone and the Security Force member will secure the free zone gate with a Government lock if applicable. The reverse applies for opening the area the following day.

C 601 FLAME-PRODUCING DEVICES: Flame-producing equipment such as matches and lighters are not permitted inside a restricted area. Smoking within this area is prohibited except in limited designated areas. Electrically operated lighters shall be used at these locations. The use of torches for cutting, welding, etc., is also restricted to certain areas and must be coordinated in advance with the Fire Department as part of the welding/burning permit process.

C 602 EQUIPMENT STOCKPILES AND CONSTRUCTION DEBRIS: Equipment stockpiles and construction debris shall be kept a minimum of 50 feet away from perimeter fencing.

C 603 CONTRACTOR OPERATIONAL FACILITIES: The Contractor shall be required to provide portable latrine facilities inside the free zone and also locate, as necessary, office and storage trailers in the area. All trailers left inside a restricted area after hours must be lockable from the exterior with a padlock and hasp.

C 604 MISCELLANEOUS:

C 604.1. Contractor's use of CBs, recording devices, and cameras shall be prohibited in a restricted area. The use of 2-way portable radios will be allowed with prior approval from Communications Squadron.

C 604.2. During the course of this contract execution the Contractor’s workforce will be within safety clear zone of explosives stored inside the igloos.

C 605 DRAINAGE: Grading and excavating shall be done in a manner to prevent standing water on existing fence sensor systems.

C 606 EMERGENCY OUTAGES: The Contractor shall notify the Contracting Officer immediately when an emergency outage of a utility occurs. No outage shall exceed four (4) hours in duration. The Contractor shall bear the cost for all repairs. The following list of contacts shall also be informed when an outage occurs:

SECURITY SENSORS		509 SFS/SPOSS 2154 CS/SCLGC
PHONE LINES	COMMERCIAL	509 CS
	SECURITY	509 CS/SCLGC
	FIRE ALARMS	509 CES/DEF
POWER LINES	COMMERCIAL	509 CS
	SECURITY	509 SFS/SPOS
	FIRE ALARMS	509 CES/DEF

C 607 SECURITY FENCE WORK: Any digging under the security fence due to the Contractor’s operations shall be backfilled by the end of the Contractor’s workday so that no breach of physical security is present overnight. All excavations underneath the security fence shall be backfilled or barricaded in a manner acceptable to the Security Forces through the Contracting Officer or the Contracting Officer’s representative prior to the end of each workday or when the Contractor leaves the immediate work site.

C 608 SECURITY LIGHTING/COMMUNICATION OUTAGES: All outages of the existing security lighting system must be coordinated seven (7) working days in advance through the Contracting Officer and must not exceed four (4) hours in duration. The security lighting system must be functional at all times during hours of darkness. Work on this lighting system must be scheduled and performed in stages with this requirement in mind. Lighting, being replaced by new lighting, cannot be deactivated until the new system is proven completely functional.

C 608.1. Any outages occurring to the security lighting/communication systems due to the Contractor digging in a restricted area must be repaired within four (4) hours at the Contractor’s expense.

ENVIRONMENTAL PROVISIONS

C 701 ENVIRONMENTAL REFERENCES: The Contractor is responsible for strict adherence to any local, state or Federal environmental regulations relating to this project. 509 CES/CEV is the base point of contact for environmental compliance/non-compliance issues and will provide the Contractor a briefing of environmental requirements at the pre-performance conference for this project. Additionally, the Contractor should contact the Contracting Officer whenever interpretations of environmental regulations are required.

C 702 HAZARDOUS MATERIAL SUBMITTAL REQUIREMENTS:

C 702.1. Submittals shall be required for all hazardous materials (most materials contain hazardous constituents). For the purposes of this project, hazardous material shall be defined as any material or

mixture of materials which may present a danger to the public health, occupational safety, or the environment and includes:

- C 702.1.1. Materials containing chemicals defined under Section 1910.122(c) of Title 29 of the Code of Federal Regulations (CFR), any extremely hazardous substance listed in 40 CFR part 355; and any pesticide for which a registration has been canceled or suspended under the provisions of the Missouri Pesticide Registration Act, section 281.210 through section 281.310 of the Revised Statutes of Missouri (RSMo), and 2 Code of State Regulations (C.S.R) 70-25.010 et seq., or under the Federal Environmental Pesticide Control provisions of 7 United States Code (U.S.C.) section 136, et seq., and;
 - C 702.1.2. Materials containing any element, compound, mixture, solution or substance as designated pursuant to sections 101(14) and 102 of the Comprehensive Environmental Response, Compensation, and Liabilities Act of 1980 (CERCLA), codified at 42 U.S.C. sections 9601(14) and 9602, or requiring notice pursuant to section 304 of the Emergency Planning and Community Right-to-Know Act of 1986, codified at 42 U.S.C. section 11004, and;
 - C 702.1.3. Any hazardous material, or group or class of material, designated as hazardous by United States Secretary of Transportation under 49 U.S.C. section 5103.
- C 702.2. Prior to the Contractor transporting any hazardous material onto Whiteman AFB, the Contractor must provide a current copy of the manufacturer's Material Safety Data Sheet (MSDS) to the Contracting Officer for certification. The Contractor must ensure the MSDS contains at minimum, the following information and additional documentation from the manufacturer defining the values of items not directly addressed by the MSDS:
- C 702.2.1. Manufacturer's Name
 - C 702.2.2. List 100% of the hazardous chemical components
 - C 702.2.3. Chemical Abstract Number (CAS Number) for each chemical component
 - C 702.2.4. Specific Gravity/Unit Volume and or Unit Weight
 - C 702.2.5. Ph (Acidity or Alkalinity) if applicable
 - C 702.2.6. Flash Point/Ignitability
 - C 702.2.7. Exact weight in pounds/ounces of the material initially brought on base
- C 702.3. No hazardous materials for this project shall be allowed on base until the Contractor has received written approval of the submittal for the material in question from the Contracting Officer. If the Contractor's intent is to bring more of the product (same manufacturer) on base property after the product has received approval, only a weight submittal will be required. If it is a different manufacturer from that originally submitted, a new MSDS submittal will be required.
- C 702.4. All material tracking shall be done on the Hazardous Material Tracking List which must be; 1) submitted initially, 2) whenever new hazardous materials are added to the project (minimum of sixty days between update) and 3) a final update when leftover materials are removed upon completion of the project. Prior to final acceptance of this project, the Contractor must submit a listing of all hazardous materials relating to this project. The Hazardous Materials Tracking List will include the product name, manufacturer, and exact weight of material remaining. A copy of the Hazardous Materials Tracking List is in Section J, Attachment 10.

C 702.5. When special haul routes are required to deliver or remove hazardous materials for this project it shall be addressed by the Contracting Officer during review and approval of each hazardous material submittal.

C 703 HAZARDOUS WASTES DISPOSAL REQUIREMENTS:

C 703.1. All hazardous wastes generated by this project shall be handled in the manner required by the State of Missouri and Federal regulations (RSMo 10 CSR, 40 CFR, and 49 CFR). For this project hazardous waste shall be defined as any solid wastes satisfying the criteria listed in 40 CFR 261.3.

C 703.2. The Contractor shall ensure wastes generated by this project that have been chemically altered during this project are sampled and analyzed to establish levels of all possible Resource Conservation Recovery Act contaminants.

C 703.3. The Contractor shall perform all required training and notifications concerning hazardous waste or materials related to Contractor's activities and maintain an on-site listing of employees so trained.

C 703.4. The Contractor shall be responsible for proper labeling, containerization, handling, and storage of hazardous wastes created from this project.

C 703.5. As required by 40 CFR, Whiteman AFB is the "generator" of all hazardous wastes originating within the confines of the installation and as such is required to certify all hazardous waste is properly prepared and shipped by signing the manifest for off site transport. All hazardous waste shipments shall be initiated by completion of a "Hazardous Waste Manifest" EPA Form 8700-22 (Rev. 9-94) MDNR-HWG 10) obtainable from the Missouri Department of Natural Resources. The Contractor shall be responsible for obtaining all necessary manifest forms and for proper completion of each required by this project.

C 703.5.1. The Contractor shall obtain all manifest numbers from 509 CES/CEV.

C 703.5.2. Each manifest line item must have the quantity listed on the manifest in pounds except Polychlorinated Biphenyl's (PCBs) which shall have the quantity listed in Kilograms.

C 703.5.3. Each manifest line item must have supporting documentation to allow proper chemical characterization of the hazards as defined in 40 CFR and MO 10 CSR. Sampling and analysis will be required on all wastes which have been contaminated or altered during the course of this project.

C 703.5.4. The Contractor shall insure all hazardous wastes are moved off base only by properly licensed hazardous waste transporters and are sent to properly licensed disposal facilities.

C 703.5.5. 509 CES/CEV shall be the only authorized agency to sign each manifest for wastes being transported off Whiteman AFB. Each shipment must be evaluated by 509 CES/CEV for compliance with applicable environmental regulations prior to signing the manifest. The Contractor shall retain the responsibility for correction of all discrepancies noted during the pre-transport evaluation.

(Note: CEV personnel are present only during 7:30 to 4:30 on normal working days, Monday through Friday).

C 704 INSPECTION LIABILITY:

C 704.1. The Contractor shall understand that any operations on Whiteman AFB property are fully inspectable (on a no notice basis) by the Department of Defense, The Department of the Air Force, Missouri Department of Natural Resources (MDNR), Environmental Protection Agency (EPA), Occupational Health and Safety Agency (OSHA), and other federal regulatory agencies. Compliance with all environmental requirements pertaining to this project is mandatory.

C 704.2. The Contractor is subject to no-notice inspections of all activities related to the project by 509 CES/CEV (Base Environmental Flight). Issues of noncompliance will be addressed directly to the Contracting Officer or his/her representative to ensure rapid correction of the unsatisfactory features.

C 704.3. The Contractor is liable to the Air Force for any fines, penalties, or environmental assessments levied against the Air Force by any environmental regulatory agency that arise from, or relate to, the Contractor's performance of this contract, or the contractor's failure to perform as specified by the contract. Any such liability may result in an equitable adjustment to the contract or contract price, establishment of a contract debt, or recovery by the Government under any other judicial, administrative, or contractual remedy as may be available to the Government.

C 705 POLLUTION ABATEMENT: The Contractor shall perform all work in a manner minimizing pollution of air, water, and land, as required. In addition, the following requirements shall be mandatory:

C 705.1. Burning of any material by the Contractor on Whiteman AFB is prohibited.

C 705.2. Stream beds, lakes, drainage ways, sanitary and storm sewer, etc., shall not be polluted by fuels, oils, bitumens, acids, paints, or other harmful materials. Surface drainage from the construction site which contains harmful amounts of sediment shall not be allowed to drain into the adjacent areas. All grading shall be accomplished to allow sedimentation to settle-out prior to flowing onto adjacent area.

C 705.3. Flushing of concrete trucks shall be restricted to the location specifically designed for that purpose by the Contracting Officer or his/her representative.

C 705.4. Excess mortar, plaster, or drywall materials shall not be disposed of on Whiteman AFB grounds. Water utilized for plastering or drywall equipment shall be disposed of in accordance with the instructions of the Contracting Officer or the Contracting Officer's representative. In no instance shall water be disposed of in areas which are planted or scheduled to be planted.

C 705.5. Noise Control: Contractor shall comply with all applicable state, local, and installation laws, ordinances, and regulations relative to noise control.

C 705.6. Covered Chutes: All chutes for refuse shall be covered or of such design to fully confine the material, contaminants, and dust.

C 705.7. Chlorinated fluorocarbons shall be reclaimed in accordance with the Clean Air Act, July 1992.

C 706 POLICY FOR STORAGE OF HAZARDOUS MATERIALS ON CONSTRUCTION SITES: The following is the policy for storage of hazardous materials on construction sites located at Whiteman AFB, Mo.

C 706.1. Definition of hazardous materials is any substance which, by reason of being explosive, flammable, poisonous, corrosive, oxidizing, irritating, or otherwise harmful, and is likely to cause death or injury.

C 706.2. Hazardous material will not be stored in Government facilities, without special authorization from the Base. Contact point will be the Fire Department at 687-6080.

C 706.3. Each construction site shall have a hazardous material storage area. This area will be the only location where hazardous material shall be stored on a construction site. Exceptions must have prior written approval from the Base. Contact point will be the Fire Department at 687-6080.

C 706.4. Number every trailer, building and shed with a number at least 6 inches by 4 inches; this number will correspond with the numbers listed below in item 706.5.1.

C 706.5. The Contractor will provide an emergency folder that will be kept on-site and up-to-date at all times (on the injury board). This folder shall contain:

C 706.5.1. Construction site map identifying each road, building, trailer, and shed on site by number, as well as hazardous material storage location.

C 706.5.2. A copy of every MSDS Material Safety Data Sheet (MSDS) with amount and location of all hazardous material on site.

C 706.6. The Contractor will also provide a copy of each map and MSDS to the Base Fire Department, Building 34 (Dispatch Office) immediately upon delivery of all hazardous material to the construction site.

C 707 UNEXPECTED DISCOVERY OF ASBESTOS ON CONSTRUCTION (RENOVATION AND DEMOLITION): The buildings and areas to be renovated or demolished have been or will be surveyed for the presence of asbestos-containing materials. This survey is not a warranty that asbestos-containing materials are either not present or limited to the amounts found in the survey. Should suspected asbestos-containing material be encountered, the Contractor shall promptly, and before the conditions of the substance encountered is disturbed, give a written notice to the Contracting Officer of the suspected asbestos-containing material conditions encountered. As directed by the Contracting Officer, the Contractor shall remove and dispose of any and all asbestos-containing material as necessary to accomplish the required work which shall be performed in accordance with all pertinent local, state, and federal laws.

C 708 UNEXPECTED HAZARDOUS SUBSTANCES: In the event that suspected hazardous substances are revealed during construction activities, all such construction activities in the immediate area shall be immediately suspended. Hazardous substances for purposes of this specification only, shall be defined as CERCLA hazardous substances, infectious or radioactive wastes, asbestos or oil. The Contractor shall leave the materials undisturbed and shall immediately report the find by phone, followed in writing within 24 hours to the Contracting Officer so that proper authorities can be notified. The Contractor shall not resume construction activities in the vicinity of the suspected hazardous substances until written clearance is received from the Contracting Officer. Identification and removal of any such materials will be conducted in accordance with all Federal, state and local environmental laws and regulations according to the Contract Clause entitled "Differing Site Conditions" FAR 52.236-2.

DEMOLITION: Disposal of demolition waste shall be in accordance with all applicable Federal, State and local regulations, including "Chapter 260, RSMO" of the "Missouri Department of Natural Resources."

CLAUSES INCORPORATED BY REFERENCE

52.246-12 Inspection of Construction

AUG 1996

Section F - Deliveries or Performance

LIQUIDATED DAMAGES

52.211-12	LIQUIDATED DAMAGES- CONSTRUCTION (IAW FAR 11.503(b))	SEP 2000
-----------	---	----------

For the purpose of this clause the blanks are completed as follows:

- (a) If the contractor fails to complete the work within the time specified in a delivery order, the Contractor shall pay liquidated damages to the Government in the amount of \$271.20 for the first calendar day and \$139.04 for each calendar day of delay until the work is completed or accepted. This liquidated damages will apply to all delivery orders up to \$500,000.00. Separate Liquidated damages will be assessed above \$500,000.00 based on the complexity of the project.

	PERFORMANCE WORK HOURS	
--	------------------------	--

Contractor’s work hours are 7:00 A.M. to 4:30 P.M., excluding Saturdays, Sundays, and Federal Holidays.

Federal Holidays are as follows:

- | | |
|--------------------------------|---------------------|
| 1. New Year’s Day | 6. Labor Day |
| 2. Martin Luther King, Jr. Day | 7. Columbus Day |
| 3. Presidents Day | 8. Veteran’s Day |
| 4. Memorial Day | 9. Thanksgiving Day |
| 5. Independence Day | 10. Christmas Day |

Note: Work on weekends or Federal Holidays: If the contractor intends to work on weekends or holidays, the contractor shall notify the Contracting Officer (in writing) for Approval/Disapproval. Notification shall be submitted no later than three (3) working days prior to the weekend/holiday.

Section G - Contract Administration Data

LOCAL INFORMATION**G.1 ACCOUNTING AND APPROPRIATION DATA**

Refer to block 23 of the SF 1442 (to be inserted upon award).

G.2 CONTRACT ADMINISTRATION

Contract Administration of any resultant contract will be performed by the following:

509th CONTRACTING SQUADRON/LGCA
727 SECOND STREET, SUITE 124
WHITEMAN AFB, MO 65305-5344
Telephone: (660) 687-5425

G.3 INVOICING AND PAYMENT

Payment will be made upon receipt of properly prepared invoices bearing the contract number, and project number. Invoices shall be submitted to the address listed in G2 above. Payment will be made by; see SF 1442, block 27. All payments will be made in accordance with the Payments under Fixed-Price Construction Contracts clause, FAR 52.232-27 entitled Prompt Payment for Construction Contracts.

The following items are required for final invoice payment:

- 1) Final invoice
- 2) Release of claims
- 3) All certified payrolls including those for completion of punch list items
- 4) As-Built Drawings (See Section H-12)
- 5) Return of all contractor passes issued (See Section H-6, paragraph 4)

G.4 PAYMENT MADE BY AND SUBMISSION OF INVOICES

The contractor shall submit original invoices for payment as prescribed in FAR 252.232-7003 Electronic Submission of Payment Request (Mar 2003). Payment will be made by:

DFAS Limestone-F67100
27 Arkansas Road
Limestone, ME 04751-1500

For submittal of electronic invoices, the contractor shall refer to paragraph (1) (2) (3), Wide Area Work Flow-Receipt and Acceptance.

If the contractor is unable to submit a payment in electronic form, the contractor shall refer paragraph to (3) for submittal of non-electronic invoices. The contractor shall submit original invoices for payment to the following address:

509th CONTRACTING SQUADRON/LGCA
727 Second Street, Suite 124A
Whiteman AFB, MO 65305-5344

Section H - Special Contract Requirements

SPECIAL CONTRACT REQUIREMENTS

H-1	BASE ACCESS
------------	--------------------

Occasionally it is necessary to require either early release of Whiteman AFB personnel, late reporting, or even total base closure when weather conditions make normal travel unsafe. When weather conditions cause one of the above situations, contractor personnel will be denied access to the base unless they have been notified that their contract service has been determined essential. For base closure or late reporting during inclement weather, listen to radio stations KOKO (1450 AM), DVEQ (104.0 FM), KPRS (103.3 FM), KDRO (1490 AM), KXXK (105.7 FM), KSIS (1050 AM), KLRQ (96.1 FM) KDKD (1280 AM/95.3 FM), and / or watch television stations KMBC (Channel 9) and WAFC Cable (channel 41).

H-2	REQUIRED INSURANCE (IAW FAR 28.306(b))
------------	---

Reference FAR clause entitled "Insurance . . ." the Contractor shall, at its own expense, procure and thereafter maintain the following kinds of insurance with respect to performance under the contract.

- a. Workmen's Compensation and Employers Liability Insurance as required by law except that if this contract is to be performed in a State which does not require or permit private insurance, then compliance with the statutory or administrative requirements in any such State will be satisfactory. The required Workmen's Compensation insurance shall extend to cover employer's liability for accidental bodily injury or death and for occupational disease with a minimum liability limit of **\$100,000**.
- b. General Liability Insurance. Bodily injury liability insurance, in the minimum limits of **\$500,000** per occurrence shall be required on the comprehensive form of policy.
- c. Automobile Liability Insurance. This insurance shall be required on the comprehensive form of policy and shall provide bodily injury liability and property damage liability covering the operation of all automobiles used in connection with the performance of the contract. At least the minimum limits of **\$200,000** per person and **\$500,000** per occurrence for bodily injury and **\$20,000** per occurrence for property damage shall be required.

Before commencing work under this contract, the Contractor shall certify to the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective (1) for such period as the laws of the State in which this contract is to be performed prescribed or (2) until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

H-3	BONDS
------------	--------------

- a. Performance and Payment Bonds. The contractor will be required to furnish a Performance Bond (Standard Form 25) and a Payment Bond (Standard Form 25-A), each with good and sufficient surety or sureties, acceptable to the Government for each delivery order

exceeding \$100,000.00 within 14 calendar days after delivery order award. The contractor may use alternate payment protection for the delivery orders between \$2,000.00 and \$100,000.00.

Note: A Notice to proceed will not be issued and no work shall begin until good and sufficient surety has been received and accepted by the Contracting Officer.

NOTE: INDIVIDUAL SURETY CLAUSE: In order for the Contracting Officer to determine the acceptability of individuals proposed as sureties, all offerors providing bonds which are executed by individual sureties are required to submit the following information in support of Standard Form 28, "Affidavit of Individual Surety:"

- a. A complete description of property offered, supported by title or deed, and appraisal or tax assessment.
- b. A current list of all other bonds on which the individual is a surety and bonds for which the individual is requesting to be a surety.
- c. Independent certification of net value of property offered.
- d. Independent certification of liens or other encumbrances which exist against all property listed.
- e. CPA - certified balance sheet(s) and income statement(s) with a signed opinion for each individual surety.

H-4	RECEIPT OF PROPOSALS
------------	-----------------------------

Proposals will not be considered "received" until physically delivered to the 509 Contracting Squadron, 727 Second Street, Suite 124A, Whiteman AFB MO 65305-5344.

H-5	TAXES
------------	--------------

The Missouri Department of Revenue agrees that contractors, subcontractors and material suppliers may claim an exemption from Missouri sales and use tax with respect to tangible personal property and materials purchased or used for the purpose of constructing, repairing or remodeling facilities for the United States of America, its agencies and instrumentalities ("the United States"). Therefore, the Contracting Officer shall provide a project exemption certificate to the successful contractor awarded this project. The contractor shall further provide the project exemption to all subcontractors purchasing construction materials for this project.

NOTE: THE PROJECT EXEMPTION CERTIFICATE DOES NOT ALLOW CONTRACTORS TO PURCHASE MACHINERY, EQUIPMENT, OR TOOLS USED IN FULFILLING THIS CONTRACT, TAX EXEMPT.

H-6	SECURITY REQUIREMENTS FOR UNCLASSIFIED CONTRACTS
------------	---

1. Security Training. The on-base contractor senior representative ensures all contractor employees receive initial and recurring security education training from the sponsoring agency's

security manager. Training must be conducted IAW DOD 5200.1-R, Information Security Program Regulation, and AFI 31-401, Information Security Program Management. Contractor personnel who work in Air Force controlled/restricted areas must be trained IAW AFI 31-209, The Air Force Resource Protection Program, and AFI 31-101, The Air Force Physical Security Program.

2. Listing Of Employees. The on-base contractor senior representative shall maintain a current listing of employees. The list shall include the employee's name, social security number and level of security clearance if contract work involves unescorted entry to Air Force restricted areas or other sensitive areas designated by the installation commander. The list shall be provided to the Contracting Officer and sponsoring agency's security manager. An updated listing shall be provided when an employee's status or information changes.

3. Requirements For Contractors Requesting Base Entry. Contractor employees requiring entry for contract performance shall ensure the following pass and identification items are obtained for employees and for non-government owned vehicles.

a. DD Form 1172, "Application for Uniformed Services Identification Card". Forms shall be supplied by the Contracting Office, at 727 Second Street, Suite 124A, Building 139. The contractor employees shall fill out and carry the forms to the Security Forces, Visitor Control Center, Bldg. 2027, Spirit Gate, Whiteman AFB, MO 65305.

b. AF Form 75, Visitor/Vehicle Pass, will be issued by the Security Forces, Pass and Identification Office, upon proof of employment, insurance, ownership of vehicle, and a valid drivers license. Passes are non-transferable: At no time will they be removed and used for different vehicle other than the one for which it was issued.

c. AF Form 2219 (series), Registered Vehicle Expiration Tab.

d. DD Form 2220, DoD Registered Vehicle and Installation Tab. Issued one decal to primary contractors only. Contractor places decal on personal vehicle only. Company marked vehicles do not get decals. Company vehicles will get an AF Form 75, vehicle pass, in Force Protection Condition Bravo or higher. If a contractor changes vehicles or replaces windshield a new decal will not be issued without turning in the old decal. Decals are designed to be completely destroyed and unreadable when removed. Contractors must know and provide visitor center personnel the number and letter sequence off the old decal (DD Form 2220) prior to turn in.

e. AF Form 1199, USAF Restricted Area Badge. (IF APPLICABLE) An AF Form 2586, Unescorted Entry Authorization Certificate, must be completed and signed by the sponsoring agencies Security Manager before a Restricted Area Badge will be issued. Contractor employees must have a completed National Agency Check (NAC) investigation before receiving a Restricted Area Badge.

4. Retrieving Passes / Vehicle Decals (AF Form 75): At the completion of the contract, the Contractor will be required to submit a listing of all employees working on this contract to Security Forces at the Visitor Center. This listing shall be accompanied by any contractor passes or vehicle decals issued during the duration of this contract. **Final payment will not be made until Contracting receives a copy of Security Force's validation that all passes / decals have been accounted for.**

5. For Official Use Only (FOUO). The contractor shall comply with AFI 37-131, Freedom Of Information Act Program (FOIA)", requirements. The regulation sets policy and procedures for the disclosure of records to the public and for marking, handling, transmitting, and safeguarding FOUO material.
6. Additional Security Requirements. In accordance with DoD 5200.1-R, and AFI 31-401, the contractor shall comply with requirements identified in AFSSI 9100, Communications Security (COMSEC), Command, Control, Communications and Computer (C4) Systems Security, Security Awareness Training Education (SATE), and Operations Security (OPSEC).
7. Reporting Requirements. The contractor shall comply with AFI 71-101V4, "Counterintelligence Awareness and Briefing Program", requirements. Contractor personnel shall report to an appropriate authority any information or circumstances of which they are aware may pose a threat to the security of DOD personnel, contractor personnel, resources, and classified or unclassified defense information. Contractor employees shall be briefed by their immediate supervisor upon initial on-base assignment.
8. Traffic Laws. The contractor and his/her employees shall comply with base traffic regulations.
9. Weapons, Firearms, and Ammunition. Contractor employees are prohibited from possessing weapons, firearms, or ammunition, on themselves or within their contractor-owned or privately owned vehicle while on Whiteman AFB.
10. Physical Security. The contractor shall be responsible for safeguarding all government property and controlled forms provided for contractor use. At the end of each work period, all government facilities, equipment, and materials shall be secured.
11. Key Control. The contractor shall establish and implement methods of making sure all keys issued to the contractor by the Government are not lost or misplaced and are not used by unauthorized persons. The contractor shall not duplicate any keys issued by the government.
 - a. The contractor shall immediately report to the QA, construction inspector, or Contracting Officer any occurrences of lost or duplicated keys.
 - b. In the event keys, other than master keys, are lost or duplicated, the contractor may be required, upon written direction of the contracting officer, to re-key or replace the affected lock or locks without cost to the government. The government may, however, at its option, replace the affected lock or locks or perform re-keying and deduct the cost of such from the payment due the contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the payment due the contractor.
 - c. The contractor shall prohibit the use of keys, issued by the government, by any persons other than the contractor's employees and the opening of locked areas by contractor employees to permit entrance of persons other than contractor employees engaged in performance of contract work requirements in those areas.

12. Lock Combinations. The contractor shall control access to all government provided lock combinations to preclude unauthorized entry.

13. Controlled/Restricted Areas. (IF APPLICABLE) The contractor shall implement local base procedures for entry to Air Force controlled/restricted areas where contractor personnel will work.

14. Operating Instructions. (IF APPLICABLE) The contractor shall develop an operating instruction (OI) for internal circulation control, protection of resources and to regulate entry into Air Force controlled areas during normal, simulated and actual emergency operations. The OI shall be written IAW AFI 31-209, The Air Force Resource Protection Program, the local base Operations Plan and AFI 31-210, Anti Terrorism Program and coordinated through Security Forces Squadron.

H-7	PREPARATION OF PROGRESS SCHEDULES AND REPORTS
------------	--

The reports contemplated by the clause 52.236-15 entitled "Schedules for Construction Contracts" shall be accomplished on and in accordance with instructions pertaining to AF Form 3064, Contract Progress Schedule, and AF Form 3065, Contract Progress Report. The AF Form 3064 shall be provided to the Contracting Officer not later than 15 calendar days after issuance of the Notice to Proceed. (Mandatory when performance is 60 or more days)

H-8	MATERIAL APPROVAL SUBMITTAL FORM (AF FORM 3000)
------------	--

All material and articles requiring approval, as contemplated by the Materials and Workmanship Clause (FAR 52.236-5), shall be submitted by the contractor using AF Form 3000. These submittals are divided into three classes. Class "A" submittals shall be brought to the pre-construction conference. Class "B" submittals are due as specified either on the ENG Form 4288 or as directed by the Contracting Officer (usually within ten days after receipt of the Notice to Proceed). Class "C" submittals are submitted on an "as required" basis. In addition, the contractor is reminded that the certification on the AF Form 3000 **must** be signed by an individual within the company who has authority to make the certification.

H-9	UTILITY SERVICES
------------	-------------------------

The Contracting Officer has determined that Government-operated utilities are adequate and will be furnished to the contractor without charge where existing outlets are available. The contractor is responsible for installing temporary service outlets, as necessary, and charges will be made in accordance with the clause entitled "Availability and Use of Utility Services" (Contract Clause FAR52.236-14)

Damage to Utilities

(a) In the event of a contractor caused utility failure/disruption, the Contractor will first make the area safe, then immediately contact the Base Civil Engineer Call Desk and Contracting Officer.

(b) Repairs to contractor-damaged utilities will be performed in a timely manner and at no additional cost to the Government.

H-10	TELEGRAPHIC AND TELEFAX OFFERS/AMENDMENTS
-------------	--

Telegraphic and telefax offers are not acceptable. Offerors may telefax changes to their offers to 660-687-5462 (Telefax number). The change must arrive at the place specified in the solicitation prior to the time set for receipt of offers. Changes received after this time will not be considered.

H-11	ON SITE OFFICE TRAILERS AND STORAGE TRAILERS/FACILITIES
-------------	--

a. Unless otherwise indicated, no on-base storage facilities are available for contractor owned materials. Buildings and structures which are part of the contract may be used for storage providing the space is not required for occupancy and contractor accepts full responsibility for the material stored therein. The Contracting Officer will designate areas where above-mentioned equipment shall be parked.

H-12	AS-BUILT DRAWINGS
-------------	--------------------------

The contractor shall maintain one set of drawings at the work site and record all changes and any hidden or subsurface data discovered during construction. The contractor shall provide a marked by blueline copy with all changes, which transpired during the contract. This will be given to the Contracting Officer prior to the final inspection.

H-13	ENVIRONMENTAL PROVISIONS
-------------	---------------------------------

Environmental Impact

All waste materials generated by the contractor or any work under the contract performed on a government installation shall be handled, transported, stored, and disposed of by the contractor and by his/her subcontractors at any time in accordance with all applicable Federal, state, or local laws, ordinances, regulations, court orders, or other types of rules or rulings having the effect of law, including but not limited to Executive Order 12088, 13 October 1978; the Federal Water Pollution Control Act, as amended (33 USC Sec 1251 ET SEQ); the Clean Air Act, as amended (42 USC SEC 1857 ET SEQ); the Endangered Species Act, as amended (16 USC Sec 1531, ET SEQ); the Toxic Substance control Act, as amended (15 USC Sec 2601 ET SEQ); the National Historic Preservation Act, as amended (16 USC Sec 470, ET SEQ); and the Archaeological and Historic Preservation Act, as amended (16 USC Sec 460, ET SEQ); the Estimate of and Percentage of Recovered Material Content for EPA Designated (Products) [Aug 2000]; and the Waste Reduction Program [Aug 2000] as required by the Resources Conservation and Recover Act of 1976, as amended (42 USC 6926 (I)(2)(C)).

1. Environmental References – The contractor is responsible for strict adherence to any local, state, or Federal environmental regulations relating to this contract. 509 CES/CEV is the base point of contact for environmental compliance / non-compliance issues and if applicable, will provide the contractor a briefing of environmental requirements at the pre-performance conference for this contract. Additionally, the contractor shall contact the Contracting Officer whenever interpretations of environmental regulations are required.

2. Hazardous Material Submittal Requirements:

(a) Submittals shall be required for all hazardous materials (most materials contain hazardous constituents). For the purposes of this contract, hazardous material shall be defined as any material or mixture of materials, which may present a danger to the public health, occupational safety, or the environment and includes:

(1) Materials containing chemicals defined under Section 1910.122 (c) of Title 29 of the code of Federal Regulations (CFR), any extremely hazardous substance listed in 40 CFR part 355, and any pesticide for which a registration has been canceled or suspended under the provisions of the Missouri Pesticide Registration Act, Section 281.210 through Section 281.310 of the Revised Statutes of Missouri (RSMO) and 2 Code of State Regulations (C.S.R.) 70-25.010 et seq. Or under the Federal Environmental Pesticide Control provisions of the 7 United States Code (U.S.C.) Section 136, et seq., and;

(2) Materials containing any element, compound, mixture, solution, or substance as designated pursuant to sections 101(14) and 102 of the Comprehensive Environmental Response, Compensation, and Liabilities Act of 1980 (CERCLA), codified at 42 U.S.C. Sections 9601 (14) and 9602, or requiring notice pursuant to Section 304 of the Emergency Planning and Community Right-to-Know- Act of 1986, codified at 42 U.S.C. Section 11004, and;

(3) Any hazardous material, or group or class or material, designated as hazardous by the United States Secretary of Transportation under 49 U.S.C. Section 5130.

(b) Prior to contractor transporting any hazardous material onto Whiteman Air Force Base, the contractor must provide a current copy of the manufacturer's Material Safety Data Sheet (MSDS) to the Contracting Officer for certification. The contractor must ensure the MSDS contains at minimum, the following information and additional documentation from the manufacturer defining the values of items not directly addressed by the MSDS:

- (1) Manufacturer's Name
- (2) List 100% hazardous components
- (3) Chemical Abstract Number (CAS Number) for each chemical component
- (4) Specific Gravity / Unit Volume and or Unit Weight
- (5) pH (Acidity or Alkalinity) if applicable
- (6) Flash Point / Ignitability
- (7) Exact Weight in pounds / ounces of the material initially brought on base

(c) No hazardous materials for this contract shall be allowed on base until the contractor has received written approval of the submittal for the material in question from the Contracting Officer. If the contractor's intent is to bring more of the product (same manufacturer) on base property after the product has received approval, only a weight submittal will be required. If it is a different manufacturer from that originally submitted, then a new MSDS submittal will be required.

(d) All material tracking shall be done on the Hazardous Material Tracking List which must be; (1) submitted initially, (2) whenever new hazardous materials are added to the contract (minimum of 60 days between update), and (3) a final update when leftover materials are removed upon completion of the contract. Prior to final acceptance of this contract, the contractor must submit a listing of all hazardous materials relating to this contract. The

Hazardous Material Tracking List will include the product name, manufacturer, and exact weight of material remaining.

(e) When special haul routes are required to deliver or remove hazardous materials for this contract, it shall be addressed by the Contracting Officer during review and approval of each hazardous material submittal.

3. Hazardous Wastes Disposal Requirements:

(a) All hazardous wastes generated by this contract shall be handled in the manner required by the State of Missouri and Federal regulations (RSMO 10 CSR, 40 CFR, and 49 CFR). For this contract, hazardous waste shall be defined as any solid wastes satisfying the criteria listed in 40 CFR 261:3.

(b) The contractor shall ensure wastes generated by this contract that have been chemically altered during this contract are sampled and analyzed to establish levels of all possible Resource Conservation Recovery Act contaminants.

(c) Contractor shall perform all required training and notifications concerning hazardous waste or materials related to contractor's activities and maintain an on-site listing of employees so trained.

(d) The contractor shall be responsible for proper labeling, containerization, handling, and storage of hazardous wastes created from this contract.

(e) As required by 40 CFR, Whiteman Air Force Base is the "generator" of all hazardous wastes originating within the confines of the installation, and as such is required to certify all hazardous waste is properly prepared and shipped by signing the manifest for off-site transport. All hazardous waste shipments shall be initiated by completion of a "Hazardous Waste Manifest" EPA Form 8700-22 (Rev. 9-94) MDNR-HWG 10, obtainable from the Missouri Department of Natural Resources. The contractor shall be responsible for obtaining all necessary manifest forms and for proper completion of each required by this contract.

(1) The contractor shall obtain all manifest numbers from 509 CES/CEV.

(2) Each manifest line item must have the quantity listed on the manifest in pounds except Polychlorinated Biphenyls (PCBS) which shall have the quantity listed in kilograms.

(3) Each manifest line item must have supporting documentation to allow proper chemical characterization of the hazards as defined in 40 CFR and MO 10 CSR. Sampling and analysis will be required on all wastes, which have been contaminated or altered during the course of this contract.

(4) The contractor shall insure all hazardous wastes are moved off base only by properly licensed hazardous waste transporters and are sent to properly licensed disposal facilities.

(5) 509 CES/CEV shall be the only authorized agency to sign each manifest for wastes being transported off Whiteman Air Force Base. Each shipment must be evaluated by 509 CES/CEV for compliance with applicable environmental regulations prior to signing the manifest. The contractor shall retain the responsibility for correction of all discrepancies noted during the pre-

transport evaluation. (Note: CEV personnel are present only during 7:30 a.m. to 4:30 p.m. on normal working days, Monday through Friday.)

4. Inspection Liability:

(a) The contractor must understand that any operations on Whiteman Air Force Base property are fully inspectable (on a no-notice basis) by the Department of Defense, the Department of the Air Force, Missouri Department of Natural Resources (MDNR), Environmental Protection Agency (EPA), Occupational Health and Safety Agency (OSHA), and other federal regulatory agencies. Compliance with all environmental requirements pertaining to this contract is mandatory.

(b) The contractor is subject to no-notice inspections of all activities related to the project by 509 CES/CEV (Base Environmental Flight). Issues of non-compliance will be addressed directly to the Contracting Officer or his/her representative to ensure rapid correction of unsatisfactory features.

(c) The contractor is liable to the Air Force for any fines, penalties, or environmental assessments levied against the Air Force by any environmental regulatory agency that arise from, or relate to, the contractor's performance of this contract, or the contractor's failure to perform as specified by the contract. Any such liability may result in an equitable adjustment to the contract price, establishment of a contract debt, or recovery by the government under any other judicial, administrative, or contractual remedy as may be available to the Government.

Section I - Contract Clauses

CLAUSES INCORPORATED BY REFERENCE

52.202-1 Alt I	Definitions (Dec 2001) --Alternate I	MAY 2001
52.203-3	Gratuities	APR 1984
52.203-5	Covenant Against Contingent Fees	APR 1984
52.203-6	Restrictions On Subcontractor Sales To The Government	JUL 1995
52.203-7	Anti-Kickback Procedures	JUL 1995
52.203-8	Cancellation, Rescission, and Recovery of Funds for Illegal or Improper Activity	JAN 1997
52.203-10	Price Or Fee Adjustment For Illegal Or Improper Activity	JAN 1997
52.203-12	Limitation On Payments To Influence Certain Federal Transactions	JUN 2003
52.204-4	Printed or Copied Double-Sided on Recycled Paper	AUG 2000
52.209-6	Protecting the Government's Interest When Subcontracting With Contractors Debarred, Suspended, or Proposed for Debarment	JUL 1995
52.211-13	Time Extensions	SEP 2000
52.215-2	Audit and Records--Negotiation	JUN 1999
52.215-8	Order of Precedence--Uniform Contract Format	OCT 1997
52.216-7 Alt I	Allowable Cost and Payment (Dec 2002) - Alternate I	FEB 1997
52.216-21	Requirements	OCT 1995

252.247-7024	Notification Of Transportation Of Supplies By Sea	MAR 2000

CLAUSES INCORPORATED BY FULL TEXT

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984) - ALTERNATE I (APR 1984)

The Contractor shall be required to (a) commence work under this contract within **To be cited on each delivery order** calendar days after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than **To be cited on each delivery order**. The time stated for completion shall include final cleanup of the premises.

*The Contracting Officer shall specify either a number of days after the date the contractor receives the notice to proceed, or a calendar date.

The completion date is based on the assumption that the successful offeror will receive the notice to proceed by **To be cited on each delivery order**. The completion date will be extended by the number of calendar days after the above date that the Contractor receives the notice to proceed, except to the extent that the delay in issuance of the notice to proceed results from the failure of the Contractor to execute the contract and give the required

performance and payment bonds within the time specified in the offer.

(End of clause)

52.215-19 NOTIFICATION OF OWNERSHIP CHANGES (OCT 1997)

(a) The Contractor shall make the following notifications in writing:

(1) When the Contractor becomes aware that a change in its ownership has occurred, or is certain to occur, that could result in changes in the valuation of its capitalized assets in the accounting records, the Contractor shall notify the Administrative Contracting Officer (ACO) within 30 days.

(2) The Contractor shall also notify the ACO within 30 days whenever changes to asset valuations or any other cost changes have occurred or are certain to occur as a result of a change in ownership.

(b) The Contractor shall--

(1) Maintain current, accurate, and complete inventory records of assets and their costs;

(2) Provide the ACO or designated representative ready access to the records upon request;

(3) Ensure that all individual and grouped assets, their capitalized values, accumulated depreciation or amortization, and remaining useful lives are identified accurately before and after each of the Contractor's ownership changes; and

(4) Retain and continue to maintain depreciation and amortization schedules based on the asset records maintained before each Contractor ownership change.

The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirement of FAR 15.408(k).

(End of clause)

52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from award through the scheduled completion date.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$2,000.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor:

(1) Any order for a single item in excess of \$750,000.00;

(2) Any order for a combination of items in excess of \$750,000.00; or

(3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 5 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 INDEFINITE QUANTITY. (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum". The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum".

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after the completion of the last delivery order.

(End of clause)

52.219-17 SECTION 8(a) AWARD (DEC 1996)

(a) By execution of a contract, the Small Business Administration (SBA) agrees to the following:

(1) To furnish the supplies or services set forth in the contract according to the specifications and the terms and conditions by subcontracting with the Offeror who has been determined an eligible concern pursuant to the provisions of section 8(a) of the Small Business Act, as amended (15 U.S.C. 637(a)).

(2) Except for novation agreements and advance payments, delegates to the 509th Contracting Squadron, Whiteman AFB, Missouri the responsibility for administering the contract with complete authority to take any action on behalf of the Government under the terms and conditions of the contract; provided, however that the contracting agency shall give advance notice to the SBA before it issues a final notice terminating the right of the subcontractor to proceed with further performance, either in whole or in part, under the contract.

(3) That payments to be made under the contract will be made directly to the subcontractor by the contracting activity.

(4) To notify the 509th Contracting Squadron, Whiteman AFB, Missouri Contracting Officer immediately upon notification by the subcontractor that the owner or owners upon whom 8(a) eligibility was based plan to relinquish ownership or control of the concern.

(5) That the subcontractor awarded a subcontract hereunder shall have the right of appeal from decisions of the cognizant Contracting Officer under the "Disputes" clause of the subcontract.

The offeror/subcontractor agrees and acknowledges that it will, for and on behalf of the SBA, fulfill and perform all of the requirements of the contract.

(c) The offeror/subcontractor agrees that it will not subcontract the performance of any of the requirements of this subcontract to any lower tier subcontractor without the prior written approval of the SBA and the cognizant Contracting Officer of the 509th Contracting Squadron, Whiteman AFB, Missouri.

52.219-18 NOTIFICATION OF COMPETITION LIMITED TO ELIGIBLE 8(A) CONCERNS (JUN 2003)

(a) Offers are solicited only from small business concerns expressly certified by the Small Business Administration (SBA) for participation in the SBA's 8(a) Program and which meet the following criteria at the time of submission of offer--

(1) The Offeror is in conformance with the 8(a) support limitation set forth in its approved business plan; and

(2) The Offeror is in conformance with the Business Activity Targets set forth in its approved business plan or any remedial action directed by the SBA.

(b) By submission of its offer, the Offeror represents that it meets all of the criteria set forth in paragraph (a) of this clause.

(c) Any award resulting from this solicitation will be made to the Small Business Administration, which will

subcontract performance to the successful 8(a) offeror selected through the evaluation criteria set forth in this solicitation.

(d)(1) Agreement. A small business concern submitting an offer in its own name shall furnish, in performing the contract, only end items manufactured or produced by small business concerns in the United States or its outlying areas. If this procurement is processed under simplified **acquisition** procedures and the total amount of this contract does not exceed \$25,000, a small business concern may furnish the product of any domestic firm. This paragraph does not apply to construction or service contracts.

(2) The **Error! Reference source not found.** will notify the 509th Contracting Squadron, Whiteman AFB, Contracting Officer in writing immediately upon entering an agreement (either oral or written) to transfer all or part of its stock or other ownership interest to any other party.

(End of clause)

52.223-9 ESTIMATE OF PERCENTAGE OF RECOVERED MATERIAL CONTENT FOR EPA-DESIGNATED PRODUCTS (AUG 2000)

(a) Definitions. As used in this clause--

Postconsumer material means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of "recovered material."

Recovered material means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

(b) The Contractor, on completion of this contract, shall--

(1) Estimate the percentage of the total recovered material used in contract performance, including, if applicable, the percentage of postconsumer material content; and

(2) Submit this estimate to **509th Contracting Squadron, 727 Second street Suite 124A Whiteman AFB Missouri 65305**

(End of clause)

52.223-11 OZONE-DEPLETING SUBSTANCES (MAY 2001)

(a) Definition. Ozone-depleting substance, as used in this clause, means any substance the Environmental Protection Agency designates in 40 CFR part 82 as--

(1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or

(2) Class II, including, but not limited to, hydrochlorofluorocarbons.

(b) The Contractor shall label products which contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j (b), (c), and (d) and 40 CFR Part 82, Subpart E, as follows:

“WARNING: Contains (or manufactured with, if applicable), a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.”-----

The Contractor shall insert the name of the substance(s).

(End of clause4)

52.225-9 BUY AMERICAN ACT—CONSTRUCTION MATERIALS (JUN 2003)

(a) Definitions. As used in this clause--

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the end product.

Domestic construction material means--

(1) An unmanufactured construction material mined or produced in the United States; or

(2) A construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.

Foreign construction material means a construction material other than a domestic construction material.

United States means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference. (1) This clause implements the Buy American Act (41 U.S.C. 10a-10d) by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to the construction material or components listed by the Government as follows: [Contracting Officer to list applicable excepted materials or indicate "none"]

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American Act. (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
Item 1			
Foreign construction material....
Domestic construction material...
Item 2			
Foreign construction material....
Domestic construction material...

Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(End of clause)

52.225-11 BUY AMERICAN ACT--CONSTRUCTION MATERIALS UNDER TRADE AGREEMENTS (JAN 2004)

(a) Definitions. As used in this clause--

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the end product.

Designated country means any of the following countries: Aruba, Austria, Bangladesh, Belgium, Benin, Bhutan, Botswana, Burkina Faso, Burundi, Canada, Cape Verde, Central African Republic, Chad, Comoros, Denmark.

Djibouti, Equatorial Guinea, Finland, France, Gambia, Germany, Greece, Guinea, Guinea-Bissau, Haiti, Hong Kong, Ireland, Israel, Italy, Japan.

Kiribati, Korea, Republic of, Lesotho, Liechtenstein, Luxembourg, Malawi, Maldives, Mali, Mozambique, Nepal, Netherlands, Niger, Norway, Portugal, Rwanda.

Sao Tome and Principe, Sierra Leone, Singapore, Somalia, Spain, Sweden, Switzerland, Tanzania U.R., Togo, Tuvalu, Uganda, United Kingdom, Vanuatu, Western Samoa, Yemen.

Designated country construction material means a construction material that--

- (1) Is wholly the growth, product, or manufacture of a designated country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a designated country into a new and different construction material distinct from the materials from which it was transformed.

Domestic construction material means--

- (1) An unmanufactured construction material mined or produced in the United States; or
- (2) A construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.

Foreign construction material means a construction material other than a domestic construction material.

Free Trade Agreement country means Canada, Chile, Mexico, or Singapore.

Free Trade Agreement country construction material means a construction material that--

- (1) Is wholly the growth, product, or manufacture of a Free Trade Agreement (FTA) country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a FTA country into a new and different construction material distinct from the materials from which it was transformed.

United States means the 50 States, the District of Columbia, and outlying areas.

(b) Construction materials. (1) This clause implements the Buy American Act (41 U.S.C. 10a-10d) by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the Trade Agreements Act and Free Trade Agreements (FTAs) apply to this acquisition. Therefore, the Buy American Act restrictions are waived for designated country and FTA country construction materials.

(2) The Contractor shall use only domestic, designated country, or NAFTA country construction material in performing this contract, except as provided in paragraphs (b)(3) and (b)(4) of this clause.

(3) The requirement in paragraph (b)(2) of this clause does not apply to the construction materials or components listed by the Government as follows: None

(4) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(3) of this clause if the Government determines that--

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the restrictions of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American Act.

(1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(4) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(4)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
Item 1:			
Foreign construction material....			
Domestic construction material...			
Item 2:			
Foreign construction material....			
Domestic construction material...			

\1\ Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(e) United States law will apply to resolve any claim of breach of this contract.

(End of clause)

52.236-4 PHYSICAL DATA (APR 1984)

Data and information furnished or referred to below is for the Contractor's information. The Government shall not be responsible for any interpretation of or conclusion drawn from the data or information by the Contractor.

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

<http://farsite.hill.af.mil>

(End of clause)

52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (APR 1984)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any DFARS (48 CFR Chap 2) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

252.223-7001 HAZARD WARNING LABELS (DEC 1991)

(a) "Hazardous material," as used in this clause, is defined in the Hazardous Material Identification and Material Safety Data clause of this contract.

(b) The Contractor shall label the item package (unit container) of any hazardous material to be delivered under this contract in accordance with the Hazard Communication Standard (29 CFR 1910.1200 et seq). The Standard requires that the hazard warning label conform to the requirements of the standard unless the material is otherwise subject to the labeling requirements of one of the following statutes:

(1) Federal Insecticide, Fungicide and Rodenticide Act;

(2) Federal Food, Drug and Cosmetics Act;

(3) Consumer Product Safety Act;

(4) Federal Hazardous Substances Act; or

(5) Federal Alcohol Administration Act.

(c) The Offeror shall list which hazardous material listed in the Hazardous Material Identification and Material Safety Data clause of this contract will be labeled in accordance with one of the Acts in paragraphs (b)(1) through (5) of this clause instead of the Hazard Communication Standard. Any hazardous material not listed will be interpreted to mean that a label is required in accordance with the Hazard Communication Standard.

MATERIAL (If None, Insert "None.")

ACT

(d) The apparently successful Offeror agrees to submit, before award, a copy of the hazard warning label for all hazardous materials not listed in paragraph (c) of this clause. The Offeror shall submit the label with the Material Safety Data Sheet being furnished under the Hazardous Material Identification and Material Safety Data clause of this contract.

(e) The Contractor shall also comply with MIL-STD-129, Marking for Shipment and Storage (including revisions adopted during the term of this contract).

(End of clause)

252.236-7001 CONTRACT DRAWINGS, MAPS, AND SPECIFICATIONS (AUG 2000)

(a) The Government will provide to the Contractor, without charge, one set of contract drawings and specifications, except publications incorporated into the technical provisions by reference, in electronic or paper media as chosen by the Contracting Officer.

(b) The Contractor shall--

- (1) Check all drawings furnished immediately upon receipt;
- (2) Compare all drawings and verify the figures before laying out the work;
- (3) Promptly notify the Contracting Officer of any discrepancies;
- (4) Be responsible for any errors that might have been avoided by complying with this paragraph (b); and
- (5) Reproduce and print contract drawings and specifications as needed.

(c) In general--

- (1) Large-scale drawings shall govern small-scale drawings; and
- (2) The Contractor shall follow figures marked on drawings in preference to scale measurements.

(d) Omissions from the drawings or specifications or the misdescription of details of work that are manifestly necessary to carry out the intent of the drawings and specifications, or that are customarily performed, shall not relieve the Contractor from performing such omitted or misdescribed details of the work. The Contractor shall perform such details as if fully and correctly set forth and described in the drawings and specifications.

(e) The work shall conform to the specifications and the contract drawings identified on the following index of drawings:

(End of clause)

252.236-7006 COST LIMITATION (JAN 1997)

(a) Certain items in this solicitation are subject to statutory cost limitations. The limitations are stated in the Schedule.

(b) An offer which does not state separate prices for the items identified in the Schedule as subject to a cost limitation may be considered nonresponsive.

(c) Prices stated in offers for items subject to cost limitations shall include an appropriate apportionment of all costs, direct and indirect, overhead, and profit.

(d) Offers may be rejected which--

(1) Are materially unbalanced for the purpose of bringing items within cost limitations; or

(2) Exceed the cost limitations, unless the limitations have been waived by the Government prior to award.

252.247-7023 TRANSPORTATION OF SUPPLIES BY SEA (MAY 2002) ALTERNATE III (MAY 2002)

(a) Definitions. As used in this clause --

(1) "Components" means articles, materials, and supplies incorporated directly into end products at any level of manufacture, fabrication, or assembly by the Contractor or any subcontractor.

(2) "Department of Defense" (DoD) means the Army, Navy, Air Force, Marine Corps, and defense agencies.

(3) "Foreign flag vessel" means any vessel that is not a U.S.-flag vessel.

(4) "Ocean transportation" means any transportation aboard a ship, vessel, boat, barge, or ferry through international waters.

(5) "Subcontractor" means a supplier, materialman, distributor, or vendor at any level below the prime contractor whose contractual obligation to perform results from, or is conditioned upon, award of the prime contract and who is performing any part of the work or other requirement of the prime contract.

(6) "Supplies" means all property, except land and interests in land, that is clearly identifiable for eventual use by or owned by the DoD at the time of transportation by sea.

(i) An item is clearly identifiable for eventual use by the DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination.

(ii) "Supplies" includes (but is not limited to) public works; buildings and facilities; ships; floating equipment and

vessels of every character, type, and description, with parts, subassemblies, accessories, and equipment; machine tools; material; equipment; stores of all kinds; end items; construction materials; and components of the foregoing.

(7) "U.S.-flag vessel" means a vessel of the United States or belonging to the United States, including any vessel registered or having national status under the laws of the United States.

(b)(1) The Contractor shall use U.S.-flag vessels when transporting any supplies by sea under this contract.

(2) A subcontractor transporting supplies by sea under this contract shall use U.S.-flag vessels if--

(i) This contract is a construction contract; or

(ii) The supplies being transported are--

(A) Noncommercial items; or

(B) Commercial items that--

(1) The Contractor is reselling or distributing to the Government without adding value (generally, the Contractor does not add value to items that it contracts for f.o.b. destination shipment);

(2) Are shipped in direct support of U.S. military contingency operations, exercises, or forces deployed in humanitarian or peacekeeping operations; or

(3) Are commissary or exchange cargoes transported outside of the Defense Transportation System in accordance with 10 U.S.C. 2643.

(c) The Contractor and its subcontractors may request that the Contracting Officer authorize shipment in foreign-flag vessels, or designate available U.S.-flag vessels, if the Contractor or a subcontractor believes that --

(1) U.S.-flag vessels are not available for timely shipment;

(2) The freight charges are inordinately excessive or unreasonable; or

(3) Freight charges are higher than charges to private persons for transportation of like goods.

(d) The Contractor must submit any request for use of other than U.S.-flag vessels in writing to the Contracting Officer at least 45 days prior to the sailing date necessary to meet its delivery schedules. The Contracting Officer will process requests submitted after such date(s) as expeditiously as possible, but the Contracting Officer's failure to grant approvals to meet the shipper's sailing date will not of itself constitute a compensable delay under this or any other clause of this contract. Requests shall contain at a minimum --

(1) Type, weight, and cube of cargo;

(2) Required shipping date;

(3) Special handling and discharge requirements;

(4) Loading and discharge points;

(5) Name of shipper and consignee;

(6) Prime contract number; and

(7) A documented description of efforts made to secure U.S.-flag vessels, including points of contact (with names and telephone numbers) with at least two U.S.-flag carriers contacted. Copies of telephone notes, telegraphic and facsimile message or letters will be sufficient for this purpose.

(e) The Contractor shall, within 30 days after each shipment covered by this clause, provide the Contracting Officer and the Maritime Administration, Office of Cargo Preference, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590, one copy of the rated on board vessel operating carrier's ocean bill of lading, which shall contain the following information:

- (1) Prime contract number;
- (2) Name of vessel;
- (3) Vessel flag of registry;
- (4) Date of loading;
- (5) Port of loading;
- (6) Port of final discharge;
- (7) Description of commodity;
- (8) Gross weight in pounds and cubic feet if available;
- (9) Total ocean freight in U.S. dollars; and
- (10) Name of the steamship company.

(f) The Contractor shall insert the substance of this clause, including this paragraph (f), in subcontracts that are for a type of supplies described in paragraph (b)(2) of this clause.

(End of clause)

5352.242-9000 CONTRACTOR ACCESS TO AIR FORCE INSTALLATIONS (JUN 2002)

(a) The contractor shall obtain base identification and vehicle passes for all contractor personnel who make frequent visits to or perform work on the Air Force installation(s) cited in the contract. Contractor personnel are required to wear or prominently display installation identification badges or contractor-furnished, contractor identification badges while visiting or performing work on the installation.

(b) The contractor shall submit a written request on company letterhead to the contracting officer listing the following: contract number, location of work site, start and stop dates, and names of employees and subcontractor employees needing access to the base. The letter will also specify the individual(s) authorized to sign for a request for base identification credentials or vehicle passes. The contracting officer will endorse the request and forward it to the issuing base pass and registration office or security police for processing. When reporting to the registration office, the authorized contractor individual(s) should provide a valid driver's license, current vehicle registration, valid vehicle insurance certificate, to obtain a vehicle pass.

(c) During performance of the contract, the contractor shall be responsible for obtaining required identification for newly assigned personnel and for prompt return of credentials and vehicle passes for any employee who no longer requires access to the work site.

- (d) When work under this contract requires unescorted entry to controlled or restricted areas, the contractor shall comply with AFI 31-209, the Air Force Resource Protection Program, and AFI 31-501, Personnel Security Program Management, as applicable.
- (e) Upon completion or termination of the contract or expiration of the identification passes, the prime contractor shall ensure that all base identification passes issued to employees and subcontractor employees are returned to the issuing office.
- (f) Prior to submitting an invoice for final payment, the prime contractor shall obtain a clearance certification from the issuing office which states all base identification passes have been turned in, accounted for, or transferred to a follow-on contract. This certification shall be submitted to the contracting officer prior to submission of the final invoice for payment.
- (g) Failure to comply with these requirements may result in withholding of final payment.

WIDE AREA WORKFLOW-RECEIPT AND ACCEPTANCE (WAWF-RA) (Construction)

1. In accordance with DFARS Clause 252.232-7003, Electronic Submission of Payment Request, the contractor shall submit payment requests using WAWF-RA. Information regarding WAWF-RA is available on the internet at <https://wawf.eb.mil>.
2. The contractor shall create an "Invoice as 2 in 1".
3. The contractor shall use the following Department of Defense Activity Address Codes (DODAAC).

ISSUE DODAAC: FA4625

ADMIN DODAAC: FA4625

INSPECT DODAAC: FA4625/_____ (Insert Extension) TO VENDOR: Extension is necessary for proper payment.

SERVICE ACCEPTOR DODAAC: FA4625

PAY DODAAC: _____ (Insert Pay DoDAAC, usually Limestone: F67100)

NOTE: Vendor must include the following email address where the program prompts for additional emails: (Insert the 509 CONS Personnel E-Mail Address)

509 CONS Personnel E-Mail Address:

POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Asphalt roller operator, finish; asphalt paver and spreader; asphalt plant operator; auto grader or trimmer or sub-grader; backhoe; blade operator (all types); boilers-2; booster pump on dredge; boring machine (truck or crane mounted); bulldozer operator; clamshell operator; concrete cleaning decontamination machine operator; concrete mixer paver; concrete plant operator; concrete pump operator; crane operator; derrick or derrick trucks; ditching machine; dragline operator; dredge engineman; dredge operator; drillcat with compressor mounted (self-contained) or similar type self propelled rotary drill (not air tract); drilling or boring machine (rotary - self-propelled); finishing machine operator; greaser; heavy equipment robotics operator/mechanic; horizontal directional drill operator; horizontal directional drill locator; loader-forklift - skid loader (all types); hoisting engineer (2 active drums); locomotive operator (standard guage); master environmental maintenance mechanic; mechanics and welders (field and plants); mucking machine operator; piledrive operator; pitman crane or boom truck (all types); push cat; quad-track; scraper operators (all types); shovel operator; side discharge spreader; sideboom cats; skimmer scoop operator; slip-form paver (CMI, REX, Gomaco or equal); la tourneau rooter (all tiller types); tow boat operator; truck crane; ultra high perssure waterjet cutting tool system operator/mechanic; vacuum blasting machine operator/mechanic; wood and log chippers (all types)

GROUP 2: "A" Frame truck operator; articulated dump truck; back filler operator; boilers (1); chip spreader; churn drill operator; concrete mixer operator, skip loader; concrete saws (self-propelled); conveyor operator; crusher operator; distributor operator; elevating grader operator; farm tractor (all attachments); fireman rig; float operator; form grader operator; hoisting engine (1 drum); maintenance operator; multiple compactor; pavement breaker, self-propelled hydra- hammer (or similar type); power shield; paymill operator; pumps; siphons and jets; stump cutting machine; tank car heater operator (combination boiler and booster); compressor; roller operator (with or without blades); screening and washing plant; self-propelled street broom or sweeper; straw blower; tank car heater operator (combination boiler and booster); vibrating machine operator (not hand held)

GROUP 3: Oilers

GROUP 4: Oiler Driver (All Types)

FOOTNOTE:

HOURLY PREMIUMS FOLLOWING CLASSIFICATIONS SHALL RECEIVE
 (\$.25) ABOVE GROUP 1 RATE:

Clamshells - 3 yd. capacity or over; Cranes or rigs, 80 ft. of boom or over (including jib); Draglines, 3 yd. capacity or over;
 Piledrivers 80 ft. of boom or over (including jib);
 Shovels & backhoes, 3 yd. capacity or over.

GROUP 4.....	\$ 18.77	8.30

POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Asphalt finishing machine & trench widening spreader; asphalt plant console operator; autograder; automatic slipform paver; backhoe; blade operator - all types; boat operator - tow; boilers-2; central mix concrete plant operator; clamshell operator; concrete mixer paver; crane operator; derrick or derrick trucks; ditching machine; dozer operator; dragline operator; dredge booster pump; dredge engineman; dredge operator; drill cat with compressor mounted on cat; drilling or boring machine rotary self-propelled; highloader; hoisting engine - 2 active drums; launch hammer wheel; locomotive operator; - standard gauge; mechanic and welders; mucking machine; off-road trucks; piledriver operator; pitman crane operator; push cat operator; quad trac; scoop operator - all types; shovel operator; sideboom cats; skimmer scoop operators; trenching machine operator; truck crane.

GROUP 2: A-frame; asphalt hot-mix silo; asphalt plant fireman (drum or boiler); asphalt plant man; asphalt plant man; asphalt plant mixer operator; asphalt roller operator; backfiller operator; barber-greene loader; boat operator (bridges and dams); chip spreader; concrete mixer operator - skip loader; concrete plant operator; concrete pump operator; crusher operator; dredge oiler; elevating grader operator; fork lift; greaser-fleet; hoisting engine - 1; locomotive operator - narrow gauge; multiple compactor; pavement breaker; powerbroom - self-propelled; power shield; rooter; side discharge concrete spreader; slip form finishing machine; stumpcutter machine; throttle man; tractor operator (over 50 h.p.); winch truck.

GROUP 3: Boilers - 1; chip spreader (front man); churn drill

operator; clef plane operator; concrete saw operator (self-propelled); curb finishing machine; distributor operator; finishing machine operator; flex plane operator; float operator; form grader operator; pugmill operator; roller operator, other than high type asphalt; screening & washing plant operator; siphons & jets; sub-grading machine operator; spreader box operator, self-propelled (not asphalt); tank car heater operator (combination boiler & booster); tractor operator (50 h.p. or less); Ulmac, Ulric or similar spreader; vibrating machine operator, not hand;

GROUP 4: Grade checker; Oiler; Oiler-Driver

HOURLY PREMIUMS:

The following classifications shall receive \$.25 above GROUP 1 rate:

Clamshells - 3 yds. or over; Cranes - Rigs or Piledrivers, 100 ft. of boom or over (including jib);

Draglines - 3 yds. or over; Hoists - each additional active drum over 2 drums; Shovels - 3 yds. or over;

The following classifications shall receive \$.50 above GROUP 1 rate:

Tandem scoop operator; Cranes - Rigs or Piledrivers, 150 ft. to 200 ft. of boom (including jib); Tandem scoop.

The following classifications shall receive \$.75 above GROUP 1 rate:

Cranes - Rigs or Piledrivers, 200 ft. of boom or over (including jib.).

POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Backhoe, Cable; Backhoe, Hydraulic (2 cu yds bucket and under regardless of attachment, one oiler for 2 or 3, two oilers for 4 through 6); Backhoe, Hydraulic over 2 cu yds; Cableway; Crane, Crawler or Truck; Crane, Hydraulic - Truck or Cruiser mounted, 16 tons and over; Crane, Locomotive; crane with boom including jib over 100 ft from pin to pin; Crane using rock socket tool; Derrick, Steam; Derrick Car and Derrick Boat; Dragline, 7 cu yds and over; Dredge; Gradall, Crawler or tire mounted; Locomotive, Gas,

Steam & other powers; Pile Driver, Land or Floating; Scoop, Skimmer; Shovel, Power (Electric, Gas, Steam or other powers); Shovel, Power (7 cu yds and over); Switch Boat; Whirley; Air Tugger with air compressor; Anchor Placing Barge; Asphalt Spreaker; Athey Force Feeder Loader, self-propelled; Backfilling Machine; Boat Operator - Push Boat or Tow Boat (job site); Boiler, High Pressure Breaking in Period; Boom Truck, Placing or Erecting; Boring Machine, Footing Foundation; Bullfloat; Cherry Picker; Combination Concrete Hoist and Mixer (such as Mixermobile); Compressor, Two 125 CFM and under; Compressor, Two through Four over 125 CFM; Compressor when operator runs throttle; Concrete Breaker (Truck or Tractor mounted); Concrete Pump (such as Pumpcrete machine); Concrete Saw (self-propelled); Concrete Spreader; Conveyor, Large (not selfpropelled) hoisting or moving brick and concrete into, or into and on floor level, one or both; Crane, Cimbing (such as Linden); Crane, Hydraulic - Rough Terrain, self-propelled; Crane, Hydraulic - Truck or Cruiser mounted - under 16 tons; Drilling machine - Self-powered, used for earth or rock drilling or boring (wagon drills and any hand drills obtaining power from other souces including concrete breakers, jackhammers and Barco equipmnet no engineer required); Elevating Grader; Engine Man, Dredge; Excavator or Powerbelt Machine; Finishing Machine, self- propelled oscillating screed; Forklift; Generators, Two through Six 30 KW or over; Grader, Road with power blade; Greaser; Highlift; Hoist, Concrete and Brick (Brick cages or concrete skips operating or on tower, Towermobile, or similar equipment); Hoist, Three or more drums in use; Hoist, Stack; Hydro-Hammer; Lad-A-Vator, hoisting brick or concrete; Loading Machine such as Barber-Greene; Mechanic on job site

GROUP 2: Air Tugger with plant air; Boiler (for power or heating shell of building or temporary enclosures in connection with construction work); Boiler, Temporary; Compressor, One over 125 CFM; Compressor, truck mounted; Conveyor, Large (not self- propelled); Conveyor, Large (not self- propelled) moving brick and concrete (distributing) on floor level; Curb Finishing Machine; Ditch Paving Machine; Elevator (outside); Endless Chain Hoist; Fireman (as required); Form Grader; Hoist, One Drum regardless of size (except brick or concrete); Lad-A-Vator, other hoisting; Manlift; Mixer, Asphalt, over 8 cu ft capacity; Mixer, one bag capacity or less; Mixer, without side loader, two bag capacity or more; Mixer, with side loader, regardless of size, not Paver; Mud Jack (where mud jack is used in conjection with an air compressor, operator shall be paid \$.55 per hour in addition to his basic hourly rate for covering both operations); Pug Mill operator; Pump, Sump - self powered, automatic controlled over 2"; Scissor Lift (used for hoisting); Skid Steer Loader; Sweeper, Street; Tractor, small wheel type 50 HP and under with grader blade and similar equipment; Welding Machine, One over 400 amp; Winch, operating from truck

GROUP 3: Boat operator - outboard motor, job site; Conveyors (such as Con-Vay-It) regardless of how used; Elevator (inside); Heater operator, 2 through 6; Sweeper, Floor

GROUP 4: Crane type

HOURLY PREMIUMS:

- Backhoe, Hydraulic 2 cu yds or less without oiler - \$2.00;
- Certified Crane Operator - \$1.50;
- Certified Hazardous Material Operator \$1.50;
- Crane, climbing (such as Linden) - \$.50;
- Crane, Pile Driving and Extracting - \$.50
- Crane with boom (including job) over 100 ft from pin to pin - add \$.01 per foot to maximum of \$4.00);
- Crane, using rock socket tool - \$.50;
- Derrick, diesel, gas or electric hoisting material and erecting steel (150 ft or more above ground) - \$.50;
- Dragline, 7 cu yds and over - \$.50;
- Hoist, Three or more drums in use - \$.50;
- Scoop, Tandem - \$.50;
- Shovel, Power - 7 cu yds and over - \$.50;
- Tractor, Tandem Crawler - \$.50;
- Tunnel, man assigned to work in tunnel or tunnel shaft - \$.50;
- Wrecking, when machines are working on second floor or higher - \$.50

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.
=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

 hand drills obtaining power from other sources including
 concrete breakers, jackhammers and barco equipment-no
 engineer required); elevating grader; engineman, dredge;
 excavator or powerbelt machine; finishing machine,
 self-propelled oscillating screed; forklift; grader, road

with power blade; highlift. greaser; hoist, stack, hydro-hammer; loading machine (such as barber-greene); machanic, on job site; mixer, pipe wrapping machines; plant asphalt; plant, concrete producing or ready-mix job site; plant heating-job site; plant mixing-job site; plant power, generating-job site; pumps, two through six self-powered over 2"; pumps, electric submersible, two through six, over 4"; quad-track; roller, asphalt, top or sub-grade; scoop, tractor drawn; spreader box; sub-grader; tie tamper; tractor-crawler, or wheel type with or without power unit, power take-offs and attachments regardless of size; trenching machine; tunnel boring machine; vibrating machine automatic, automatic propelled; welding machines (gasoline or diesel) two through six; well drilling machine

GROUP 3: Conveyor, large (not self-propelled); conveyor, large (not self-propelled) moving brick and concrete distributing) on floor level; mixer two or more mixers of one bag capacity or less; air tugger w/plant air; boiler, for power or heating on construction projects; boiler, temporary; compressor (mounted on truck; curb finishing machine; ditch paving machine; elevator; endless chain hoist; form grader; hoist, one drum regardless of size; lad-a-vator; manlift; mixer, asphalt, over 8 cu. ft. capacity, without side loader, 2 bag capacity or more; mixer, with side loader, regardless of size; pug mill operator; pump, sump-self-powered, automatic controlled over 2" during use in connection with construction work; sweeper, street; welding machine, one over 400 amp.; winch operating from truck; scissor lift (used for hoisting); tractor, small wheel type 50 h.p. & under with grader blade & similar equipment

GROUP 4: Boat operator-outboard motor (job site); conveyor (such as con-vay-it) regardless of how used; sweeper, floor

GROUP 5: Oiler on dredge and on truck crane.

HOURLY PREMIUMS:

Backhoe, hydraulic	
2 cu. yds. or under without oiler	\$2.00
Certified Crane Operator	1.50
Certified Hazardous Material Operator	1.50
Crane, climbing (such as Linden)	.50
Crane, pile driving and extracting	.50
Crane, with boom (including jib) over 100' (from pin to pin) add \$0.1	
per foot to maximum of	4.00
Crane, using rock socket tool	.50
Derrick, diesel, gas or electric, hoisting material and erecting steel (150' or more above ground)	.50
Dragline, 7 cu. yds. and over	.50
Hoist, three (3) or more drums in use	.50
Scoop, Tandem	.50
Shovel, power - 7 cu. yds. or more	.50
Tractor, tandem crawler	.50
Tunnel, man assigned to work in tunnel or tunnel shaft	.50
Wrecking, when machine is working on second floor or higher	.50

GROUP 4: Warehousemen.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

Wage and Hour Division

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial

contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

Wage and Hour Division

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.
=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

GROUP 4: Warehousemen.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
